FIDELITY SPECIAL VALUES PLC

Annual Report for the year ended 31 August 2018

For more information click here to visit Fidelity online

Investment Objective and Overview

The investment objective of Fidelity Special Values PLC is to achieve long term capital growth predominantly through investment in UK listed companies

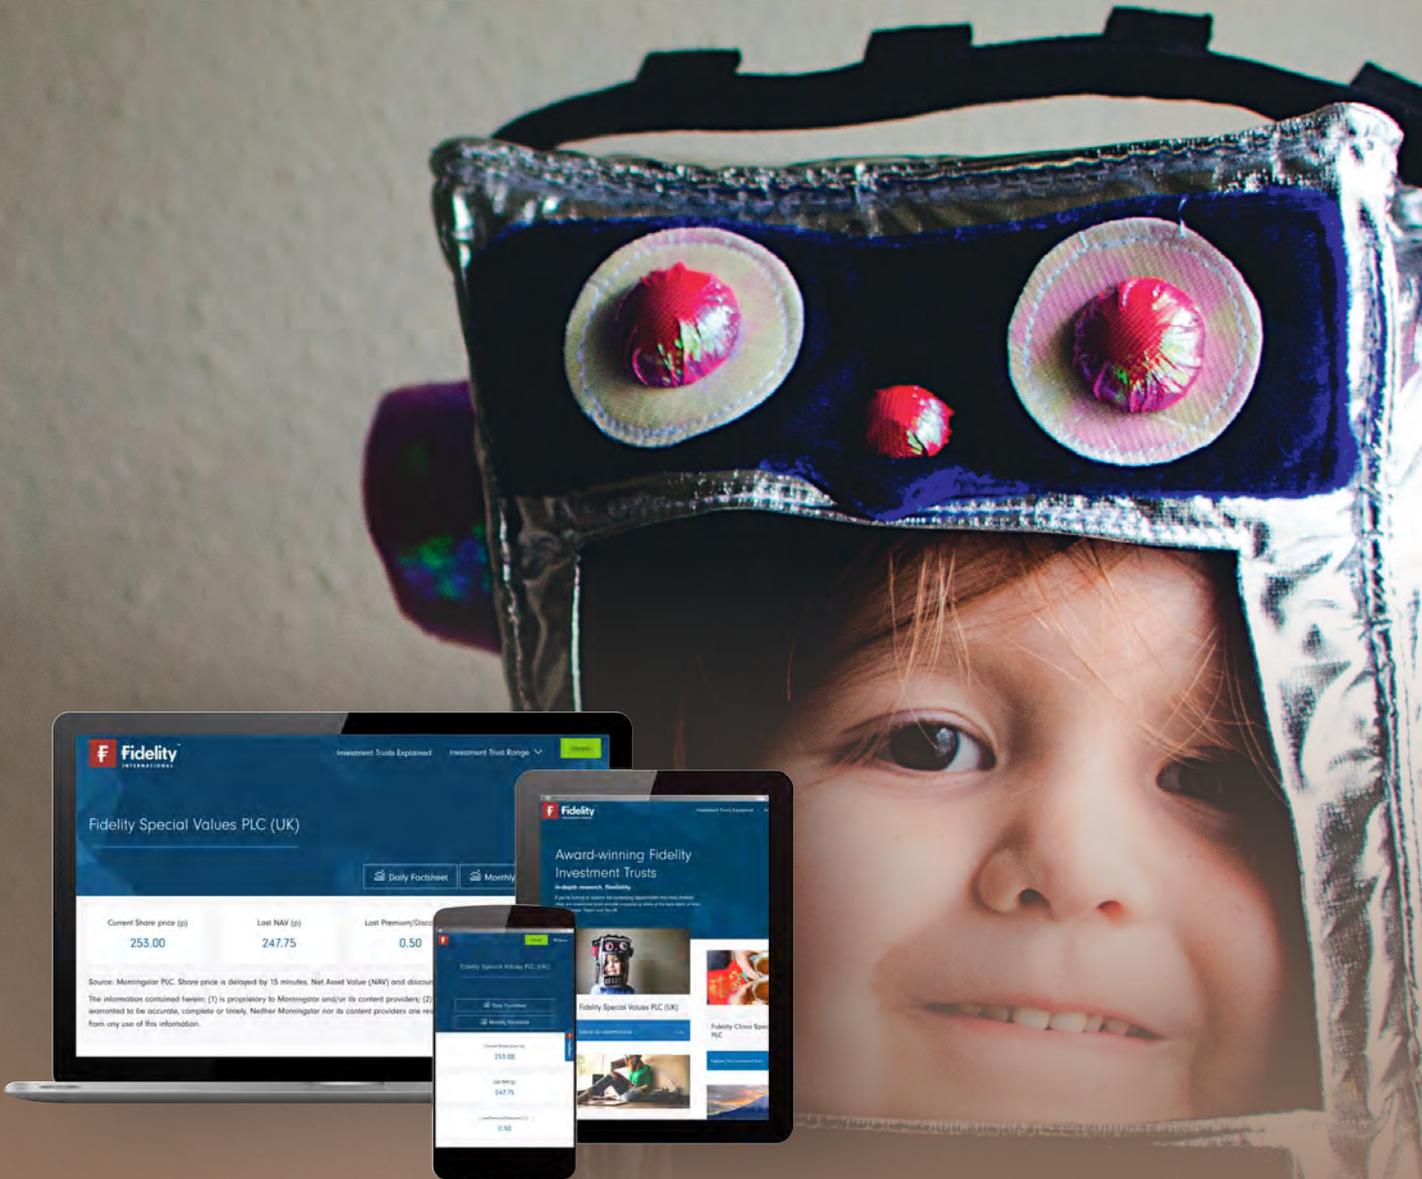

Fidelity Special Values PLC aims to achieve long term capital growth for Shareholders by investing in special situations. It is an actively managed contrarian Investment Trust that seeks out undervalued opportunities and thrives on volatility and uncertainty.

The Portfolio Manager, Alex Wright's, approach is very much in keeping with

Fidelity Special Values' heritage and history – that of value contrarian investing, looking for companies whose potential for share price growth and recovery has been overlooked by the market. He then holds these companies until their potential value is recognised by the wider market. Alex only invests in companies where he understands the potential downside risk to

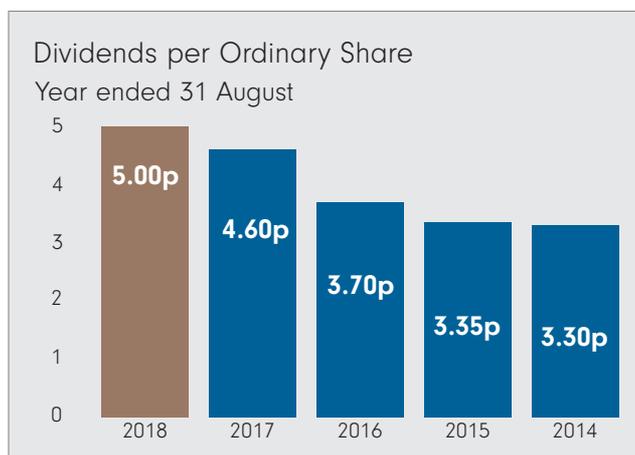

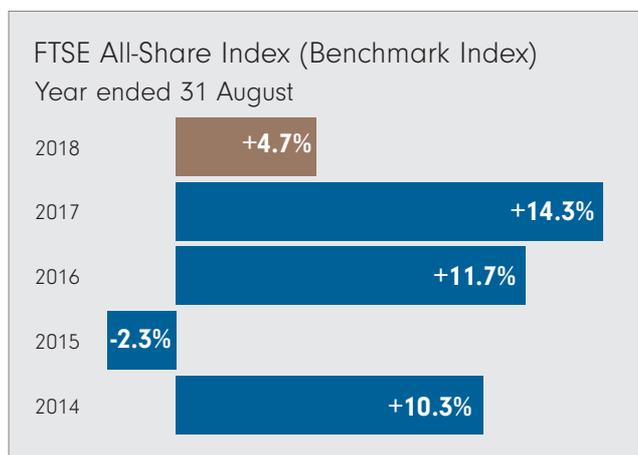

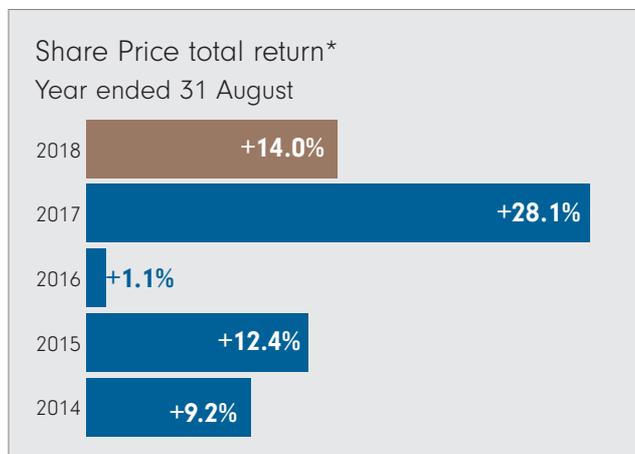

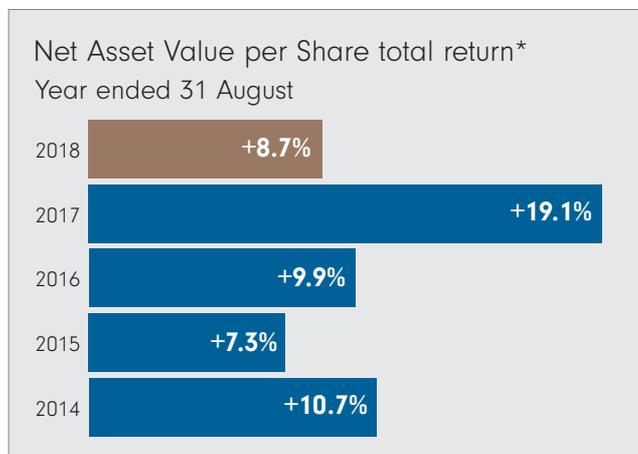

limit the possibility of losses. The Board believes that the Company is well positioned as the investment of choice for those seeking exposure to UK listed companies but with the benefit of investing up to 20% of the portfolio in listed companies on overseas exchanges in order to enhance Shareholder returns.

Andy Irvine, Chairman

At a Glance

The Company's NAV increased by 8.7% and the share price by 14.0%, both outperforming the Benchmark Index return of 4.7%.

* Includes reinvested income (see Note 20 on page 65).

As at 31 August 2018

Shareholders' Funds

£725.0m

Market Capitalisation

£735.7m

Capital Structure

Ordinary Shares of 5 pence held outside Treasury

266,549,480

Summary of the key aspects of the Investment Policy

The investment approach is flexible, with positions in large, medium and smaller sized companies, across all industries. The Company may make limited investments in companies outside of the UK.

The Company may also invest into other transferable securities, collective investment schemes, money market instruments, cash and deposits and is also able to use derivatives for efficient portfolio management and investment purposes.

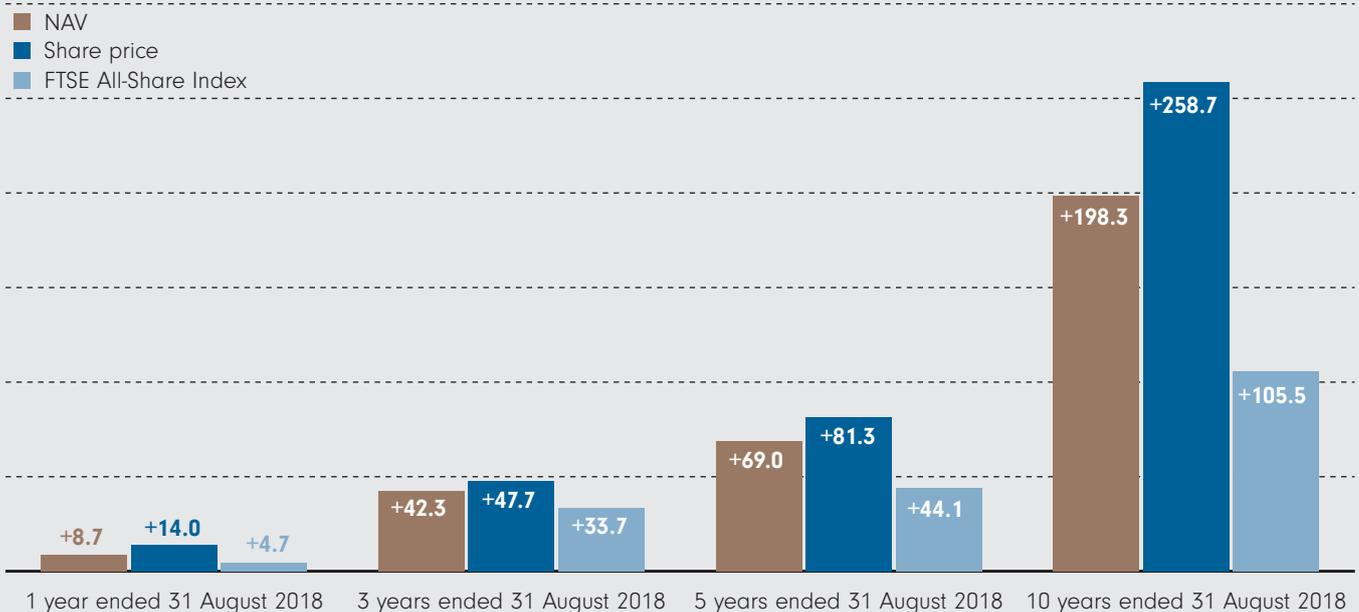

The Company is able to gear the portfolio and the Board takes the view that long term returns for Shareholders can be enhanced by the use of gearing in a carefully considered and monitored way.

Financial Highlights

	2018	2017
Assets at 31 August		
Shareholders' funds	£725.0m	£673.5m
Net Asset Value ("NAV") per share	271.98p	254.63p
Dividends for the year to 31 August		
Final dividend proposed per ordinary share	3.15p	2.80p
Interim dividend paid per ordinary share	1.85p	1.80p
Total dividends for the year	5.00p	4.60p
Share price and discount data for the year ended 31 August		
Share price at the year end	276.00p	246.50p
Share price: year high	280.00p	250.00p
Share price: year low	236.75p	195.00p
Premium/(Discount) at year end	1.5%	(3.2%)
Premium: year high/(Discount): year low	3.6%	(0.4%)
Discount: year high	(6.3%)	(12.7%)
Ongoing Charges for the year ended 31 August*	1.04%	1.06%

* Ongoing Charges (excluding finance costs and taxation) expressed as a percentage of the average net asset values for the year (prepared in accordance with methodology recommended by the Association of Investment Companies). A definition of Ongoing Charges is in the Glossary of Terms on page 76.

Standardised Performance Total Return* (%)

* Includes reinvested income.

(Year ended 31 August 2018)

Ordinary Share Price total return

Fidelity Special Values PLC aims to achieve long term capital growth for Shareholders by investing in special situations. It is an actively managed contrarian Investment Trust that seeks out undervalued opportunities and thrives on volatility and uncertainty.

The Portfolio Manager, Alex Wright's, approach is very much in keeping with Fidelity Special Values' heritage and history. Alex follows the same successful investment philosophy as Anthony Bolton, the Company's first portfolio manager - that of value contrarian investing, looking for companies whose potential for share price growth and recovery has been overlooked by the market. He then holds these companies until their potential value is recognised by the wider market. Alex only invests in companies where he understands the potential downside risk to limit the possibility of losses.

The Board believes that the Company is well positioned as the investment of choice for those seeking exposure to UK listed companies but with the benefit of investing up to 20% of the portfolio in listed companies on overseas exchanges in order to enhance Shareholder returns.

Performance

The net asset value ("NAV") of the Company increased by 8.7% over the year and the share price by an impressive 14.0%, both well above the 4.7% return of the Benchmark Index (all performance data on a total return basis). As a result of the share price performance, the Company's discount narrowed from 3.2% at the start of the reporting year into a premium of 1.5% at the end of the reporting year.

As Alex Wright completes his sixth year as the Portfolio Manager, the NAV performance of the Company continues to be impressive, having increased in absolute terms during this period at an annualised rate of 16.1%, significantly ahead of the Benchmark Index return of 9.4% p.a. On a cumulative basis over Alex's tenure, this represents a NAV total return of 144.7% compared to an Index return of 71.3%. The share price total return was 195.7%.

Alex's stock selection abilities have once again come to the fore in this reporting year, resulting in the outperformance against the Index. It has been a difficult year for stock pickers as external headwinds and a weakening domestic macroeconomic backdrop made it a tough environment for investment managers, particularly in the first half of the period. Geo-political noise, rising global trade friction and Brexit all contributed to this uncertain environment. Nevertheless, this also presented pockets of opportunities across the spectrum, particularly those areas where market participants have tended to ignore underlying value. On a more positive note, the weakness in sterling (see chart on the next page) has provided the tailwind for many of the companies that generate a large proportion of their revenues in foreign currencies. It is against this backdrop that Alex's focus on his investment thesis has succeeded in generating strong contributions from many of our key portfolio holdings over the review period.

Sterling weakness has driven market returns in 2018

Source: Datastream.

The contrarian nature of the Company's investment selection means that the Board does not expect a consistent outperformance against the Benchmark Index every single year, although it believes that the portfolio has the potential to outperform significantly over the longer term. As ever, the Board encourages Shareholders to take a similarly long term view of their investment in the Company's shares.

Outlook

The outlook for the global economy appears to have moderated slightly and financial conditions have tightened somewhat. However, growth is expected to remain relatively robust. The outlook for investment in the UK is more subdued than this time last year due to the persistent economic and political uncertainty. We have seen financial conditions in the UK tightening as well, albeit slightly, but it remains encouragingly accommodative. Given this environment, a more discriminating approach will be required to separate the best opportunities from those that could disappoint. Alex will continue to focus on strong stock picking opportunities and risk management and aims to deliver a positive relative performance of the Company's NAV. The Board feel that the strategy in place is well aligned with the long term interests of the Company's Shareholders.

OTHER MATTERS

Investment Objective

The European Union Packaged Retail and Insurance-based Investment Products ("PRIIPs") Regulation introduced the Key Information Document ("KID") which is a new regulatory requirement since the start of 2018. The format of the KID is largely prescribed and it is available on the Company's website (www.fidelityinvestmenttrusts.com). In order to better align the Company's investment objective with the phraseology of the KID, the Board is amending the investment objective of the Company from:

"The investment objective of Fidelity Special Values PLC is to achieve long term capital growth predominantly through investment in UK listed companies"

to

"The Company aims to achieve long term capital growth primarily through investment in equities (and their related

financial instruments) of UK companies which the Investment Manager believes to be undervalued or where the potential has not been recognised by the market."

The change to the Company's investment objective and the minor consequential changes to the investment policy are not material changes and are only being made to make the objective more consistent with the KID. The change in the investment objective does not imply any change to the way that the Portfolio Manager already invests on your behalf and the Board believes that the change better reflects the Company's investment process. A summary of the key aspects of the investment policy can be found on the "At a Glance" page inside the front cover of this report. The change will be effective from the date of this Annual Report.

Management Fee

I am pleased to report that, following a review of the management fees payable to Fidelity, the Board has agreed a new revised tiered fee structure with effect from 1 September 2018. The current fee of 0.875% of net assets will be reduced to a new rate of 0.85% on the first £700 million of net assets, and a further reduction to 0.75% of net assets in excess of £700 million. In addition, the fixed annual fee of £600,000 for services other than portfolio management (to include company secretarial, fund accounting, taxation, promotional and corporate advisory services) will reduce by £500,000 to £100,000 per annum. Based on net assets as at 31 August 2018, the new fee arrangement represents an estimated saving of 10% per annum.

There will be no change in the investment process as a result of the new fee arrangement.

Markets in Financial Instruments Directive ("MiFID II")

With effect from 3 January 2018, the MiFID II regulation changed the way that external investment research is paid for. Previously this research was paid for on a commission basis as part of the transaction costs and this is no longer allowed. Fidelity uses external investment research to access specific technical expertise for the benefit of the portfolio, and the Board is pleased to confirm that Fidelity has agreed to cover these costs under its existing management agreement rather than pass on the costs to the Company. This represents an estimated ongoing saving to the Company of between 0.02% and 0.03% per annum which will be directly reflected in the NAV of the Company.

Discount/Premium and Share Repurchases/Issues

Under the Company's discount management policy, the Board seeks to maintain the discount in single digits in normal market conditions and will repurchase shares to help stabilise the share price discount.

The level of discount narrowed from 3.2% at the start of the reporting year to a premium of 1.5% as at 31 August 2018. This narrowing of discount and the Company trading at a premium, gave rise to a share price total return of 14.0% for the year, well ahead of the NAV total return of 8.7%. Over the year to 31 August 2018, the Company's shares traded within a range of a 3.6% premium and a 6.3% discount.

Chairman's Statement continued

The Board will approve the issue of shares from Treasury if the Company's shares are trading at a sufficient premium to ensure that the issue of shares is not dilutive. I am pleased to say that in the reporting year, there have been periods where the Company's shares have traded at a sufficient level of premium and therefore the Company issued 2,050,000 ordinary shares from Treasury. Since the year end and as at the date of this report, the Company has issued a further 725,000 ordinary shares from Treasury.

The Company did not carry out any share repurchases in the reporting year and none have been repurchased since then and as at the date of this report.

The Board continues to monitor the discount/premium closely and will take action when it feels it will be effective.

Gearing

The Board has agreed with the Portfolio Manager that if he is able to find attractive opportunities in the market, then the Company's gearing should be allowed to rise, and stay geared, as long as the opportunities remain. Combined with Alex's contrarian and value-focused investment philosophy, and making good use of the Company's structural advantages over its open-ended counterparts, this should continue to add value for Shareholders over the long term.

Following a period of weaker performance in the market, the Portfolio Manager has increased the Company's net gearing from 0.9% as at last year end to 6.6% as at 31 August 2018. Net gearing is defined in the Glossary of Terms on page 75. Note 18 on page 64 shows the Company's gross and net gearing at the end of the reporting year.

It is the current intention of the Board that, in normal market conditions, the Portfolio Manager will maintain net gearing in the range of 0% to 20%. The maximum level of gross gearing is 40%.

Dividend

The Board's policy is to pay dividends twice yearly in order to smooth the dividend payment for the reporting year. The Company's revenue return for the year to 31 August 2018 was 5.70 pence per share. An interim dividend of 1.85 pence per share (2017: 1.80 pence) was paid on 19 June 2018 and the Board recommends a final dividend of 3.15 pence per share for the year ended 31 August 2018 (2017: 2.80 pence) for approval by Shareholders at the AGM on 12 December 2018. The interim and final dividends (total of 5.00 pence) represent a total increase of 8.7% over the 4.60 pence paid for the year ended 31 August 2017. The final dividend will be payable on 16 January 2019 to Shareholders on the register at close of business on 7 December 2018 (ex-dividend date 6 December 2018).

Shareholders may choose to reinvest their dividends for additional shares in the Company. Details of the Dividend Reinvestment Plan are set out on page 70.

Board of Directors

Nicky McCabe retired from Fidelity International at the end of December 2017 and remains on the Board as a Non-Executive Director. She will remain non-independent due to her past employment with the Manager and also because of her tenure on the Board. However, the Board was keen to retain her vast knowledge of the Company and the investment trust industry. Along with all of the other Directors, Nicky will be subject to annual re-election at the forthcoming AGM. Biographical details for all the Directors can be found on page 26 to assist Shareholders when considering their votes. The Board, between them, have a wide range of appropriate skills and experience to form a balanced Board for the Company.

Annual General Meeting

The AGM of the Company will be held at 11.30 am on Wednesday 12 December 2018 at Fidelity's offices at **25 Cannon Street, London EC4M 5TA** (nearest tube stations are St. Paul's or Mansion House). Full details of the meeting are given on pages 67 to 69.

It is the most important meeting that we, the Directors of your Company, have with our Shareholders each year. Alex Wright, the Portfolio Manager, will be making a presentation to Shareholders, highlighting the achievements and challenges of the year past and the prospects for the year to come. He will be very happy to answer any questions that Shareholders may have. We hope as many of you as possible are able to come and join us for this occasion.

Andy Irvine

Chairman

31 October 2018

Portfolio Manager's Review

Alex Wright was appointed as Portfolio Manager of Fidelity Special Values PLC on 1 September 2012. He joined Fidelity in 2001 as a research analyst and covered a number of sectors across the market cap spectrum both in the UK as well as developed and emerging Europe. He is also Portfolio Manager of Fidelity Special Situations Fund and the co-Manager of Fidelity UK Smaller Companies Fund.

Question

How has the Company performed over the year under review?

Answer

The Company's share price return of 14.0% and the NAV return of 8.7% (both on a total return basis) for the year were well above the FTSE All-Share Index (Benchmark) which returned 4.7%. A mixture of good stock selection and avoiding some of the market's weaker sectors allowed us to deliver another year of performance ahead of the wider market.

Question

And what about the market environment more broadly?

Answer

The UK stock market performed strongly, particularly in the second half of the review period, supported by a weak sterling, which buoyed shares of companies that generate sales in foreign currencies. However, we have seen headwinds in the form of escalating global trade friction, while there remains considerable uncertainty around the UK's negotiations to exit the European Union (EU).

Question

How has Brexit impacted the UK markets and the Company?

Answer

The uncertainty surrounding Brexit continues. A recurring question I have been asked recently has been whether I am finding opportunities among apparently unloved UK small and medium sized companies, particularly post Brexit. This reflects a strong consensus belief, reinforced by fund manager surveys and press coverage, that UK small and medium sized companies are deeply out of favour and under-owned compared to their larger and more international cousins in the FTSE 100. Looking at performance and valuation data since Brexit (June 2016), we see a different perspective on this one-sided narrative. In reality, small and medium sized companies have outperformed the FTSE 100 since June 2016, continuing the trend of previous years.

Although all of the market has de-rated, the FTSE 100 is now much cheaper on forward earnings estimates than the more domestic FTSE 250 and I have incrementally been finding more interesting new ideas in large sized companies.

Question

What were the drivers of performance?

Answer

We benefited from holding Ladbrokes, which was acquired by GVC Holdings. Ladbrokes is a stock I have used as an example of a deeply unloved UK domestic consumer stock which the market fundamentally misunderstood but where due diligence

Portfolio Manager's Review continued

and scenario analysis by our analyst uncovered significant value and limited downside. This value was ultimately recognised by a corporate buyer. We also received a bid for Shire, from Japanese group Takeda, following a protracted period of underperformance for the pharmaceutical company. Our position in Royal Dutch Shell performed well over the period, which benefited from rising oil prices as well as improved cash generation. The valuation continues to look attractive and we remain invested. We have also increased our position in Pearson, which has performed well over the year, but remains deeply unloved, despite what we see as an exciting future for the company.

We suffered negative contribution from owning BT and Leonardo. We have now sold out of both companies.

Question

And what about your exposure to financials?

Answer

Financials account for about 39% of the portfolio (compared to 26% in the Index), spread across banks, financial services and diversified financials. In banks, we hold Citigroup, Lloyds Banking Group, Bank of Ireland Group and RBS Group. These stocks are trading on cheap valuations. There has been a strong pick-up in their earnings and banks have been steadily rebuilding their balance sheets following the financial crash of 2008. However, this is not fully reflected in their share prices. I also hold positions in insurers such as Phoenix Group Holdings and Aviva which are more defensive businesses than banks but also trade at very attractive valuations.

Question

Do you tend to focus more on stock-specific changes or those in whole industries?

Answer

It depends. Whereas our positions in the oil and banking sectors rest on a combination of stock-specific changes and industry change, our positions in defensive sectors are more stock-specific. We remain underweight in consumer goods, although following the dramatic sell off in tobacco in the market, the Company bought a 1% position in Imperial Brands, which currently trades on a 7% dividend yield (comfortably covered by free cash flow). This is unlikely to become a large position for the Company given the negative structural trends in tobacco and high levels of leverage. However, weak sentiment and a low valuation, suggests an attractive risk/reward for the stock today. The Company has also bought a new position in Irish brewer C&C Group following their acquisition of distributor Matthew Clark, which I believe transforms their previously struggling UK business. These are examples of more stock specific change stories.

Question

Have there been any major changes to your strategy?

Answer

No. My process continues to target unloved stocks which are undergoing positive change that has not yet been recognised by the market. Given the sheer number of small and medium sized companies, and lower levels of scrutiny among other investors, I expect the portfolio will always have a significant weighting to small and medium sized companies. However, at the moment, weightings are likely to be influenced by relative valuations between different size categories, as well as the outlook for different industries and companies.

Question

What is your outlook for the next twelve months?

Answer

In the 6 years I have been managing the Company's portfolio, the UK market has delivered returns of almost 10% per year on an annualised basis. This is well above very long term historical averages, and it would probably not be wise to expect such unusually high returns to continue indefinitely.

However, I am feeling increasingly positive on the performance outlook for the UK market – particularly relative to other markets. The reasons I am positive chiefly relate to how negative everybody else seems to be. Most investors I meet are underweight in UK stocks, and many global investors avoid holding UK stocks at all if they can help it. The Brexit narrative has meant UK assets have become deeply unloved, and therefore interesting from a contrarian point of view. One thing I have learnt from investing in unloved companies is that you shouldn't necessarily wait for the good news to become obvious before investing. By investing when all the bad news is 'in the price' and no good news is expected at all, then you put the odds in your favour. I believe that whatever the outcome of the negotiations with the EU, any improvement in clarity could result in a period of stronger performance for the UK market. Investors will use any sort of agreement as a catalyst to revisit the UK market, and find that it contains many good quality undervalued companies, particularly compared to other developed markets, such as the US, where valuations are much higher.

That said, I still believe that a selective approach remains important. Not all stocks are equally attractive, and although many domestic businesses are being unfairly ignored, others are structurally compromised, financially unsound and therefore best avoided. Attractive valuations are now to be found in more defensive and large-cap parts of the market, although the financials sector remains a fertile source of ideas for my investment process. As ever, I remain focused on building a portfolio of unloved stocks with potential for positive change. There is certainly a plentiful supply of unloved companies in the UK market today, and my task is to identify those with the strongest margin of safety and the best chances of positive change.

Alex Wright

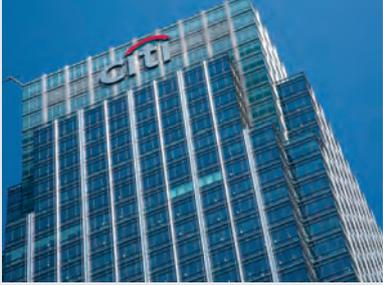

Portfolio Manager
31 October 2018

Top 10 Holdings

as at 31 August 2018

(based on Gross Asset Exposure expressed as a percentage of Shareholders' Funds)

Industry Financials

Citigroup

Gross Asset Exposure 5.4%

A global bank focused on North and South America, with a strong balance sheet that allows profits to be returned to shareholders as share buybacks. Citigroup stands out globally as a very attractively valued stock in a strong end-market, with opportunities to cut costs and grow market share.

Industry Oil & Gas

Royal Dutch Shell

Gross Asset Exposure 4.9%

Royal Dutch Shell is a global energy company. It has dramatically reduced capex and improved its cost discipline, which has allowed free cash flow generation to improve significantly. The company's 5.5% dividend yield is covered by free cash flow even if oil prices drop well below current levels, giving us confidence that the shares have a margin of safety. If prices remain around current levels, Royal Dutch Shell's valuation could rise as investors anticipate returns of capital.

Industry Financials

Lloyds Banking Group

Gross Asset Exposure 4.5%

Lloyds Banking Group is a high quality retail bank in an attractive UK banking market. It has a strong capital position and a significantly de-risked loan book. Lloyds has transformed its business over the past decade, and with PPI claims coming to an end in 2019, it will be in a position to begin returning significant amounts of cash to shareholders through dividends or buybacks of the firm's undervalued stock.

Industry Industrials

CRH

Gross Asset Exposure 4.4%

CRH is a global leader in building materials, with strong local market positions across a number of different categories. Following a series of judicious acquisitions, the company now has a plan to increase margins by 3% by 2021. Margins in the company's European business remain well below previous peaks, suggesting there is room for them to grow further.

Industry Health Care

Shire

Gross Asset Exposure 4.1%

Shire is a global pharmaceutical company with a speciality in rare diseases. Following a period of underperformance, the company received a bid from Japanese pharmaceutical group Takeda. The current share price reflects a discount to the agreed take-out price, which we would expect to narrow as the deal nears completion.

Top 10 Holdings continued

Industry Oil & Gas

BP

Gross Asset Exposure

3.9%

BP is the 7th largest oil and gas company in the world. With the uncertainty relating to the Macondo disaster and the company's Russian exposure now firmly under control, investors can now view BP as a defensive cost-leader in integrated oil, with a large portion of free cash flow not linked to oil prices. A dividend yield of over 5.5%, which is covered at much lower oil prices, should provide shareholders with a good margin of safety.

Industry Consumer Services

Pearson

Gross Asset Exposure

3.9%

Pearson remains one of the most unloved companies in the UK, despite what we see as an exciting future for the education services company. The company is gradually transitioning away from its physical textbook business towards digital services, which will significantly improve the quality of the overall business. With a strengthening balance sheet and a counter-cyclical underlying business, Pearson should prove resilient if economic conditions deteriorate.

Industry Financials

Phoenix Group Holdings

Gross Asset Exposure

3.4%

Phoenix Group Holdings is a consolidator of closed life insurance books. They recently bought a large book from Standard Life, and management have demonstrated their ability to integrate large businesses and extract cashflows which can be used to fund dividend payments or further deals. The company is well financed and could be in a position to grow its dividend, making the current 7% yield look very attractive.

Industry Financials

Aviva

Gross Asset Exposure

3.0%

UK Life insurer Aviva is now well-capitalised and highly cash generative. It has a dividend yield of over 6% which can grow as the company executes on self-help and cost management programmes. The company's low risk asset base and defensive end-markets should give it some downside protection if markets enter a more difficult phase.

Industry Financials

John Laing Group

Gross Asset Exposure

2.8%

John Laing creates, owns and manages infrastructure assets. The company trades at a discount to NAV despite profitably developing new assets. This anomaly was highlighted recently when the company received a bid for one of the funds it manages at a premium to NAV. The company is well positioned in the US, which is beginning to open up to the Public-Private Partnership (PPP) model of funding.

Strategic Report

The Directors have pleasure in presenting the Strategic Report of the Company. The Chairman's Statement and the Portfolio Manager's Review on pages 2 to 6 form part of the Strategic Report.

Business and Status

The Company carries on business as an investment company and has been accepted as an approved investment trust by HM Revenue & Customs under Sections 1158 and 1159 of the Corporation Tax Act 2010, subject to the Company continuing to meet eligibility conditions. The Directors are of the opinion that the Company has conducted its affairs in a manner which will satisfy the conditions for continued approval.

The Company is registered as an investment company under Section 833 of the Companies Act 2006 and its ordinary shares are listed and traded on the London Stock Exchange. It is not a close company and has no employees.

Objective

The Company's objective is to achieve long term capital growth predominantly through investment in UK listed companies.

Strategy

In order to achieve this objective, the Company operates as an investment company and has an actively managed portfolio of special situation investments, consisting primarily of UK listed companies. As an investment company, it is able to gear the portfolio and the Board takes the view that long term returns for Shareholders can be enhanced by using gearing in a carefully considered and monitored way.

As part of the strategy, the Board has delegated the management of the portfolio and certain other services. The Portfolio Manager aims to achieve a total return on the Company's assets over the longer term in excess of the equivalent return on the FTSE All-Share Index, the Company's Benchmark Index. The stock selection approach adopted by the Portfolio Manager is considered to be well suited to achieving this objective.

The Company's objective, strategy and principal activity have remained unchanged throughout the year ended 31 August 2018.

As mentioned in the Chairman's Statement on page 3, the Company's investment objective is being changed to bring it more in line with the phraseology of the Company's Key Information Document.

Investment Management Philosophy, Style and Focus

Fidelity's distinctive investment approach is "bottom up" stock picking - investing in companies on the basis of their underlying strengths, facilitated by extensive research capabilities. Fidelity's analysts evaluate companies, meet their management and workforce and interpret the effects of international and local events. This first hand research is fundamental to Fidelity's ability to seek the success stories of the future. The Portfolio Manager works closely with the Fidelity analyst team and also has access to a wide range of research produced by third parties.

Investment Policy

The Company seeks to meet its investment objective through investment in a diversified portfolio of securities and instruments issued by or related to predominantly UK listed companies.

The Company will have a blend of investments in larger, medium and smaller-sized companies and be guided by a contrarian philosophy.

The Portfolio Manager has a contrarian style which focuses on significant valuation anomalies in stocks which are out of favour with other investors, yet show potential for change. The Portfolio Manager believes these opportunities exist across the market capitalisation spectrum, and the investment approach is flexible, with positions in large, medium and smaller sized companies. The proportions in each size category may vary over time, as investment opportunities are selected on a bottom up basis.

Investments typically have the following characteristics:

- **Unrecognised potential for positive change:** The Portfolio Manager wants to see evidence of the company embarking upon a period of positive change. Once this change begins to be recognised by the market, there is potential for substantial upside.
- **Limited downside risk:** The Portfolio Manager invests in companies where market expectations are low. They will have some asset or characteristic that should prevent significant falls in the share price.

The Benchmark of the Company against which performance is measured is the FTSE All-Share Index.

The Company may invest directly in the shares of companies or indirectly through equity-related instruments (such as derivative contracts, warrants or convertible bonds) and in debt instruments. The Company may also invest in unquoted securities, subject to the investment restrictions set out on page 10.

Derivatives

The Company may utilise derivative instruments, including index-linked notes, CFDs, covered options and other equity-related derivative instruments as a tool to meet the investment objectives of the Company.

Derivatives usage will focus on, but not be limited to the following investment strategies:

- As an alternative form of gearing to bank loans or bonds. The Company will purchase long CFDs that achieve an equivalent effect to bank gearing but normally at lower financing costs.
- To hedge equity market risks where the Portfolio Manager considers that suitable protection can be purchased to limit the downside of a falling market at a reasonable cost; and
- By taking short exposures on stocks that the Portfolio Manager considers to be over-valued.

Strategic Report continued

The Company will not undertake any naked shorts.

Gearing

The Company may use gearing to enhance long term capital growth. The maximum level of gross gearing (defined in the Glossary of Terms on page 75) is 140%. Within this limit the Portfolio Manager has the discretion to use a range of instruments for gearing, such as debt and CFDs, depending on the relative cost and availability of those instruments. It is the current intention of the Board that, in normal market circumstances, the Portfolio Manager will maintain net gearing (defined in the Glossary of Terms on page 75) in the range of 100% to 120%. The level of gearing is considered by the Board at each of its meetings.

Currency

The Company does not carry out currency speculation. However, as a sterling based fund, investments can be made in stocks in overseas currencies and the Portfolio Manager can reduce currency exposure through the use of CFDs.

Investment Restrictions

The Company will invest and manage its assets with an objective of spreading risk through the following investment restrictions:

- No single investment (excluding cash and cash equivalents), nor the aggregate investment in any one company, shall represent more than 10% of the Company's portfolio, measured as at the time of investment;
- No more than 20% of the portfolio will be invested in companies listed on overseas exchanges;
- The Company will not invest more than 5% of its gross assets in unquoted securities; and
- The Company will not invest more than 15% of its gross assets at the time of investment in listed investment companies (including listed investment trusts), including no more than 10% at the time of investment, of its gross assets in funds that do not have stated policies to invest no more than 15% of their gross assets in other listed closed-ended investment funds.

Dividend Policy

The portfolio is managed actively in pursuit of capital growth. Hence, in any one year the dividend income received from investments will vary according to which stocks are owned during the reporting period and so will the dividend paid. In order to continue to qualify as an investment company, the Company is required by Section 1159 of the Corporation Tax Act 2010 to distribute sufficient net income so that it retains no more than 15% of its net income in any reporting year.

Performance, Results and Dividends

The Company's performance for the year ended 31 August 2018, including a summary of the year's activities and indications of trends and factors that may impact the future performance of the Company are included in the Chairman's Statement and the Portfolio Manager's Review on pages 2 to 6. The Portfolio Listing, the Distribution of the Portfolio, the Ten Year Record, the Summary

of Performance Charts and the Attribution Analysis are set out on pages 14 to 25. The Board recognises that investing in equities is a long term process and that the Company's returns will vary from year to year.

The Company's results for the year ended 31 August 2018 are set out in the Income Statement on page 45. The revenue return was 5.70 pence and the capital return was 16.29 pence, giving a total return of 21.99 pence per ordinary share.

The Directors recommend that a final dividend of 3.15 pence per ordinary share be paid on 16 January 2019 to Shareholders who appear on the register as at the close of business on 7 December 2018 (ex-dividend date 6 December 2018). This is in addition to the interim dividend of 1.85 pence paid on 19 June 2018.

Key Performance Indicators

The key performance indicators ("KPIs") used to determine the performance of the Company and which are comparable to those reported by other investment companies are set out below.

Shareholder Total Returns

Share price total return for the year ended 31 August	1 year (%)	3 years (%)	5 years (%)
Fidelity Special Values PLC ¹	+14.0	+47.7	+81.3
Low risk investment ²	+0.6	+1.5	+2.6
Benchmark Index ³	+4.7	+33.7	+44.1
Peer group ⁴	+10.3	+31.1	+63.3

NAV Total Returns

Net asset value total return for the year ended 31 August	1 year (%)	3 years (%)	5 years (%)
Fidelity Special Values PLC ¹	+8.7	+42.3	+69.0
Benchmark Index ³	+4.7	+33.7	+44.1
Peer group ⁴	+8.7	+33.1	+60.6

Premium/(Discount)

Premium/(Discount) as at 31 August	2018 (%)	2015 (%)	2013 (%)
Fidelity Special Values PLC	1.5	(2.0)	(5.0)
Peer group ⁴	(7.9)	(5.9)	(7.4)

Ongoing charges

Ongoing charges for the year ended 31 August ⁵	2018 (%)	2015 (%)	2013 (%)
Fidelity Special Values PLC	1.04	1.10	1.21

1 Total returns include reinvested income.

2 UK Interbank 3 month bid rate (banks or building societies).

3 FTSE All-Share Index.

4 AIC UK All Companies sector.

5 Defined in the Glossary of Terms on page 76.

Sources: Fidelity and Datastream.

In addition to the KPIs set out above, the Board also monitors the factors contributing to investment results, as set out in the Attribution Analysis on page 25. Long term performance is also monitored and the Ten Year Record and Summary of Performance Charts showing this information are on pages 22 to 24.

Principal Risks and Uncertainties and Risk Management

As required by provision C.2.1 of the 2016 UK Corporate Governance Code, the Board has a robust ongoing process for identifying, evaluating and managing the principal risks and uncertainties faced by the Company. The Board, with the assistance of the Alternative Investment Fund Manager (FIL Investment Services (UK) Limited/the "Manager"), has developed a risk matrix which, as part of the risk management and internal controls process, identifies the key risks that the Company faces.

The risks identified are placed on the Company's risk matrix and graded appropriately. This process, together with the policies and procedures for the mitigation of risks, is updated and reviewed regularly in the form of comprehensive reports considered by the Audit Committee. The Board determines the nature and extent of any risks it is willing to take in order to achieve its strategic objectives.

The Manager also has responsibility for risk management for the Company. It works with the Board to identify and manage the principal risks and uncertainties and to ensure that the Board can continue to meet its UK corporate governance obligations.

The Board considers the following as the principal risks and uncertainties faced by the Company. There have been no changes to these since the prior year.

EXTERNAL RISKS

Principal Risks	Description and Risk Mitigation
Market Risk	<p>The Company's assets consist mainly of listed securities and the principal risks are therefore market related such as market downturn, interest rate movements and deflation/inflation.</p> <p>Risks to which the Company is exposed to in the market risk category are included in Note 17 to the Financial Statements on pages 58 to 63 together with summaries of the policies for managing these risks.</p>
Share Price Risk	<p>Share prices are volatile and volatility is a risk for the short term Shareholder likely to want to sell in the near future. The Board does not believe that volatility would be a significant risk for the long term Shareholder.</p>
Discount Control Risk	<p>The price of the Company's shares and its discount to NAV are factors which are not within the Company's total control. However, the Board can influence this through its share repurchase policy and through creating demand for shares through good performance and an active investor relations program.</p> <p>The Company's share price, NAV and discount volatility are monitored daily by the Manager and considered by the Board regularly.</p>
Regulatory Risk	<p>The Company may be impacted by changes in legislation, taxation or regulation. These are monitored at each Board meeting and managed through active lobbying by the Manager.</p>
Cybercrime Risk	<p>The risk posed by cybercrime is significant and the Board receives regular updates from the Manager in respect of the type and possible scale of cyberattacks. The Manager's technology team has developed a number of initiatives and controls in order to provide enhanced mitigating protection to this ever increasing threat.</p>

INTERNAL RISKS

Principal Risks	Description and Risk Mitigation
Investment Management Risk	<p>The Board relies on the Portfolio Manager's skills and judgement to make investment decisions based on research and analysis of individual stocks and sectors. The Board reviews the performance of the asset value of the portfolio against the Company's Benchmark Index and its competitors and also considers the outlook for the market with the Portfolio Manager at each Board meeting. The emphasis is on long term investment performance as there is a risk for the Company of volatility of performance in the shorter term.</p>

Strategic Report continued

Principal Risks	Description and Risk Mitigation
Operational Risks – Service Providers	The Company relies on a number of third party service providers, principally the Manager, Registrar, Custodian and Depository. It is dependent on the effective operation of the Manager's control systems and those of its service providers with regard to the security of the Company's assets, dealing procedures, accounting records and the maintenance of regulatory and legal requirements. They are all subject to a risk-based program of internal audits by the Manager. In addition, service providers' own internal control reports are received by the Board on an annual basis and any concerns investigated. Risks associated with these services are generally rated as low, although the financial consequences could be serious, including reputational damage to the Company.

Continuation Vote

A continuation vote takes place every three years. There is a risk that Shareholders do not vote in favour of continuation during periods when performance of the Company's NAV and share price is poor. At the AGM held on 13 December 2016, 99.97% of Shareholders voted in favour of the continuation of the Company. The next continuation vote will take place at the AGM in 2019.

Viability Statement

In accordance with provision C.2.2 of the 2016 UK Corporate Governance Code, the Directors have assessed the prospects of the Company over a longer period than the twelve month period required by the "Going Concern" basis. The Company is an investment trust with the objective of achieving long term capital growth. The Board considers long term to be at least five years and accordingly, the Directors believe that five years is an appropriate investment horizon to assess the viability of the Company, although the life of the Company is not intended to be limited to this or any other period.

In making an assessment on the viability of the Company, the Board has considered the following:

- The ongoing relevance of the investment objective in prevailing market conditions;
- The principal risks and uncertainties facing the Company, as set out above, and their potential impact;
- The future demand for the Company's shares;
- The Company's share price relative to the NAV;
- The liquidity of the Company's portfolio;
- The level of income generated by the Company; and
- Future income and expenditure forecasts.

The Company's performance has been strong over the five year reporting period to 31 August 2018, with a NAV total return of 69.0%, a share price total return of 81.3% and a Benchmark Index return of 44.1%. The Board regularly reviews the investment policy and considers whether it remains appropriate. The Board has concluded that there is a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the next five years based on the following considerations:

- The Manager's compliance with the Company's investment objective, its investment strategy and asset allocation;
- The portfolio comprises sufficient readily realisable securities which can be sold to meet funding requirements if necessary;
- The Board's discount management policy; and
- The ongoing processes for monitoring operating costs and income which are considered to be reasonable in comparison to the Company's total assets.

In addition, the Directors' assessment of the Company's ability to operate in the foreseeable future is included in the Going Concern Statement in the Directors' Report on page 27. The Company is also subject to a continuation vote at the AGM in 2019 and the Board expect that the vote, when due, will be approved.

Board Diversity

The Board carries out any candidate search against a set of objective criteria on the basis of merit, with due regard for the benefits of diversity on the Board, including gender. As at 31 August 2018, there were two female and three male Directors on the Board.

Employee, Social, Community and Human Rights Issues

The Company has no employees, all of its Directors are non-executive and its day-to-day activities are carried out by third parties. There are therefore no disclosures to make in respect of employees.

The Fidelity group of companies (including the Manager, Fil Investment Services (UK) Limited and FIL Investments International) encourages Environmental, Social and Governance ("ESG") factors in its investment decision making process. It has been a signatory to the United Nations Principles for Responsible Investment (UNPRI) since 2012 and submits an annual report detailing how it incorporates ESG into its investment analysis.

The Company has not adopted a policy on human rights as it has no employees and its operational processes are delegated. As an investment company, the Company does not provide goods and services in the normal course of business and has no customers. Accordingly, the Board considers that the Company is not within the scope of the Modern Slavery Act 2015.

The Company's financial reports are printed by a company which has won awards for its environmental awareness and further details of this may be found on the back cover of this report.

Greenhouse Gas Emissions

The Company has no premises, consumes no electricity, gas or diesel fuel and consequently does not have a measureable carbon footprint. FIL Investment Services (UK) Limited and FIL Investments International are registered with the Carbon Reduction Commitment Energy Efficiency Scheme administered by the Environment Agency.

Socially Responsible Investment

The Manager's primary objective is to produce superior financial returns for the Company's Shareholders. It believes that high standards of corporate social responsibility ("CSR") make good business sense and have the potential to protect and enhance investment returns. Consequently, its investment process takes social, environmental and ethical issues into account when, in the Manager's view, these have a material impact on either investment risk or return.

Corporate Engagement

The Board believes that the Company should, where appropriate, take an active interest in the affairs of the companies in which it invests and that it should exercise its voting rights at their general meetings. It delegates the responsibility for corporate engagement and Shareholder voting to the Manager who updates the Board on issues and activities. These activities are reviewed regularly by the Manager's corporate governance team. Further details of the Manager's policy on corporate engagement can be found at www.fidelity.co.uk.

Future Developments

Some trends likely to affect the Company in the future are also common to many investment companies together with the impact of regulatory change. The factors likely to affect the Company's future development, performance and positions are set out in the Chairman's Statement and the Portfolio Manager's Review on pages 2 to 6.

31 October 2018

Portfolio Listing

as at 31 August 2018

The Gross Asset Exposures shown below and on pages 15 to 19 measure exposure to market price movements as a result of owning shares and derivative instruments. The Balance Sheet Value is the actual value of the portfolio. Where a contract for difference ("CFD") is held, the Balance Sheet Value reflects the profit or loss on the contract since it was opened and is based on how much the share price of the underlying share has moved.

Board of Directors

Andy Irvine

Chairman (since 5 July 2016)
Appointed 15 April 2010

Andy Irvine is a Non-Executive Director of BlackRock North American Income Trust plc. He is a past Chairman of Montanaro European Smaller Companies PLC and of Jones Lang La Salle Scotland and has over 30 years' experience in commercial property development and investment. He is also a past Non-Executive Director of Securities Trust of Scotland PLC, a past Chairman of Celtic Rugby Limited, a past Chairman of the British and Irish Lions Limited and a past President of the Scottish Rugby Union.

Nigel Foster

Appointed 1 September 2015

Nigel Foster has over 35 years' experience in the investment management industry. Prior to joining the Board, he was a Managing Director at BlackRock where he headed all market facing activities, including trading and capital markets for the EMEA region. He was also Global Head of Derivatives at BlackRock and predecessor firms for 27 years. He has led a number of prominent financial rescues and is the author of "The Derivatives Game", a book that traces the story of derivatives from ancient times to the present day.

Sharon Brown

Senior Independent Director
(since 5 July 2016)
Chairman of the Audit Committee
(since 26 October 2010)
Appointed 15 April 2010

Sharon Brown is a Non-Executive Director and Chairman of the Audit Committee of F&C Capital and Income Investment Trust PLC, McColl's Retail Group plc and Celtic PLC. She is also a Director of a number of limited companies in the retail sector. Between 1998 and 2013 she was Finance Director of Dobbies Garden Centres plc. She is a Fellow of the Chartered Institute of Management Accountants.

Nicky McCabe

Appointed 9 December 2004

Nicky McCabe is a Non-Executive Director of Artemis Fund Managers, Aberdeen Asian Income Fund Limited, Bristol University, Vitality Life Limited and Discovery Holdings Europe Limited. She was previously Head of Fidelity's Investment Trusts, a Director and Chief Operating Officer of several Fidelity companies, having joined Fidelity in 1999 as Head of Investment Administration. Prior to this, she worked for HSBC Asset Management and McKinsey & Co.

Dean Buckley

Appointed 3 November 2015

Dean Buckley is a Non-Executive Director of JPMorgan Asian Investment Trust plc, Smith & Williamson Fund Administration Ltd and Saunderson House Ltd. He was previously Chief Executive Officer at Scottish Widows Investment Partnership. Prior to this, he held several positions at HSBC Bank plc, including Chief Executive Officer for HSBC Asset Management UK and Middle East and Chief Investment Officer for HSBC Asset Management, European equities, and held a number of senior fund manager positions at Prudential Portfolio Managers. He is a Fellow of the Institute of Actuaries.

All Directors are Non-Executive Directors and all are independent, with the exception of Nicky McCabe.

Audit Management Engagement Nomination Committee Chair

Directors' Report

The Directors have pleasure in presenting their report together with the audited Financial Statements of the Company for the year ended 31 August 2018.

The Company was incorporated in England and Wales as a public limited company on 27 September 1994 under the name of Fidelity Special Values PLC with the registered number 2972628 and commenced business as an investment trust on 17 November 1994.

Management Company

FIL Investment Services (UK) Limited ("FIL") is the Company's appointed Alternative Investment Fund Manager (the "AIFM"/Manager). FIL, as the Manager, has delegated the portfolio management of assets and the role of company secretary to FIL Investments International.

The Alternative Investment Fund Management and Secretarial Services Agreement (the "Management Agreement") will continue unless and until terminated by either party giving to the other, not less than six months' notice in writing. However, it may be terminated without compensation if the Company is liquidated pursuant to the procedures laid down in the Articles of Association of the Company. The Management Agreement may also be terminated forthwith as a result of a material breach of the Agreement or on the insolvency of the Manager or the Company. In addition, the Company may terminate the Agreement by sixty days' notice if the Manager ceases to be a subsidiary of FIL Limited.

FIL Limited has no beneficial interest in the shares of the Company (2017: same).

The Board reviews the Management Agreement at least annually and details are included in the Corporate Governance Statement on pages 31 and 32.

Fee Arrangements for the reporting year

For the year ended 31 August 2018, the Company's annual management fee was 0.875% of the Company's net assets (excluding the value of any investment in any fund managed by the Manager) and a fixed fee of £600,000. Fees were calculated and paid quarterly and totalled £6,707,000 (2017: £6,076,000).

Revised Fee Arrangements

As mentioned in the Chairman's Statement, the Company has adopted a new fee arrangement with effect from 1 September 2018. Under the revised fee structure, the previous annual flat fee of 0.875% is replaced by a fee of 0.85% on the first £700 million of net assets and a rate of 0.75% will apply to net assets in excess of £700 million. In addition, the fixed annual fee of £600,000 reduced to £100,000 per annum.

The Board

All Directors served on the Board throughout the year ended 31 August 2018 and up to the date of this report. A brief description of all serving Directors is shown on page 26 and indicates their qualifications for Board membership.

Nicky McCabe retired from Fidelity International at the end of December 2017 and remains on the Board as a Non-Executive Director.

Directors' and Officers' Liability Insurance

In addition to benefits under the Manager's global Directors' and Officers' liability insurance arrangements, the Company maintains insurance cover for its Directors under its own policy as permitted by the Companies Act 2006.

Going Concern Statement

The Directors have considered the Company's investment objective, risk management policies, liquidity risk, credit risk, capital management policies and procedures, the nature of its portfolio (being mainly securities which are readily realisable) and its expenditure and cash flow projections and have concluded that the Company has adequate resources to continue to adopt the going concern basis for at least twelve months from the date of this Annual Report. The prospects of the Company over a period longer than twelve months can be found in the Viability Statement on page 12.

Auditor's Appointment

A resolution to reappoint Ernst & Young LLP as Auditor to the Company will be proposed at the AGM on 12 December 2018.

Disclosure of Information to the Company's Auditor

As required by Section 418 of the Companies Act 2006, each Director in office as at the date of this report confirms that:

- so far as each Director is aware, there is no relevant audit information of which the Company's Auditor is unaware; and
- each Director has taken all the steps that ought to have been taken as a Director to make himself/herself aware of any audit information, and to establish that the Company's Auditor is aware of that information.

Articles of Association

Any amendments to the Company's Articles of Association must be made by special resolution.

Corporate Governance

The Corporate Governance Statement forms part of this report and can be found on pages 30 to 33.

Registrar, Custodian and Depositary Arrangements

The Company has appointed Link Asset Services as its Registrar to manage the Company's share register, JPMorgan Chase Bank as its Custodian, which is primarily responsible for safeguarding the Company's assets, and J.P. Morgan Europe Limited as its Depositary, which is primarily responsible for oversight of the custody of investment funds and the protection of investors' interests. Fees paid to these service providers are disclosed in Note 5 on page 52.

Share Capital

The Company's share capital comprises ordinary shares of 5 pence each which are fully listed on the London Stock Exchange. As at 31 August 2018, the share capital of the Company was 270,644,480 shares (2017: 270,644,480) of which

Directors' Report continued

4,095,000 shares (2017: 6,145,000) are held in Treasury. Shares in Treasury do not have voting rights, therefore, the total number of shares with voting rights was 266,549,480 (2017: 264,499,480).

Premium/Discount Management: Enhancing Shareholder Value

The Board actively manages the Company's level of premium/discount. If the Company is trading at a discount, it seeks to maintain the discount in single digits in normal market conditions. The Board seeks authority from Shareholders each year to issue shares at a premium or to repurchase shares at a discount to the NAV either for cancellation or for holding in Treasury. The Board will exercise these authorities if deemed to be in the best interests of Shareholders at the time.

Share Issues

The Company issued 2,050,000 ordinary shares from Treasury during the year to 31 August 2018 (2017: nil). A further 725,000 number of shares have been issued since the year end and as at the date of this report.

The authorities to issue shares and to disapply pre-emption rights expire at the AGM on 12 December 2018 and therefore resolutions to renew these authorities will be put to Shareholders at this AGM.

Share Repurchases

No ordinary shares were repurchased for cancellation or holding in Treasury during the year to 31 August 2018 (2017: 850,000). No shares have been repurchased since the year end and as at the date of this report.

The authority to repurchase shares expires at the AGM on 12 December 2018 and a resolution to renew the authority to purchase shares, either for cancellation or to buy shares into Treasury, will be put to Shareholders at the forthcoming AGM.

Substantial Share Interests

As at 31 August 2018 and 30 September 2018, notification had been received that the Shareholders listed in the table below held more than 3% of the voting share capital of the Company.

Shareholders	31 August 2018	30 September 2018
Fidelity Platform Investors	26.99	26.93
Hargreaves Lansdown	6.39	6.37
Rathbones	5.28	5.33
Alliance Trust Savings	4.88	4.80
Investec Wealth & Investment	4.20	4.19
Speirs & Jeffrey	3.33	3.37
Quilter Investors	3.08	3.08
Brewin Dolphin	3.06	3.09

An analysis of Shareholders as at 31 August 2018 is detailed in the table below.

Shareholders as at 31 August 2018	% of voting share capital
Private Shareholders*	86.70
Institutions	9.25
Pension	1.98
Insurance	1.94
Other	0.13

* Includes Fidelity Platform Investors (26.99%).

Additional information required in the Directors' Report

Information on proposed dividends, financial instruments and greenhouse emissions is set out in the Strategic Report on pages 9 to 13.

Responsibility as an Institutional Shareholder

The Board has adopted the Manager's Principles of Ownership in relation to investments. These Principles include the pursuit of an active investment policy through portfolio management decisions, voting on resolutions at general meetings and maintaining a continuing dialogue with the management of investee companies. Fidelity is a signatory to the UK Stewardship Code setting out the responsibilities of institutional Shareholders and agents. Further details of the Manager's Principles of Ownership and voting may be found at www.fidelity.co.uk.

Relations with Shareholders

Communication with Shareholders is given a high priority by the Board and it liaises with the Manager and the Company's broker who are in regular contact with the Company's major institutional investors to canvass Shareholder opinion and to communicate its views to Shareholders. All Directors are made aware of any Shareholders' concerns and the Chairman, the Senior Independent Director and, where appropriate, other Directors, are available to meet with Shareholders to discuss strategy and governance. The Board regularly monitors the Shareholder profile of the Company and receives regular reports from the Manager on meetings attended with Shareholders and any comments raised in such meetings. The Board aims to provide the maximum opportunity for dialogue between the Company and Shareholders. If any Shareholder wishes to contact a member of the Board directly, they should either email the Company Secretary at investmenttrusts@fil.com or write to the address provided on page 72. The Company Secretary will attend to any enquiries promptly and ensure that they are directed to the Chairman, Senior Independent Director or the Board as a whole, as appropriate.

The Board encourages all Shareholders to attend the AGM on 12 December 2018 at which they have the opportunity to meet and address questions to the Chairman and other members of the Board, the Portfolio Manager and representatives of the Manager.

The Notice of Meeting on pages 67 to 69 sets out the business of the AGM and the special business resolutions are explained more fully below. A separate resolution is proposed on each substantially separate issue including the Annual Report and Financial Statements. The Notice of the AGM and related papers are sent to Shareholders at least 20 working days before the Meeting.

Voting Rights in the Company's Shares

Every person entitled to vote on a show of hands has one vote. On a poll every Shareholder who is present in person or by proxy or representative has one vote for every ordinary share held. At general meetings all proxy votes are counted and, except where a poll is called, proxy voting is reported for each resolution after it has been dealt with on a show of hands. The proxy voting results are disclosed on the Company's page of the Manager's website at www.fidelityinvestmenttrusts.com.

Annual General Meeting

THIS SECTION IS IMPORTANT AND REQUIRES YOUR IMMEDIATE ATTENTION.

If you are in any doubt as to the action you should take, you should seek advice from your stockbroker, bank manager, solicitor, accountant or other financial adviser authorised under the Financial Services and Markets Act 2000.

Fidelity Platform Investors

If you hold your shares in the Company through the Fidelity platform, you have the right to attend the Company's AGM and vote on the proposed resolutions. For the forthcoming AGMs and future AGMs, the voting process will take place online. Historically, you would have received a Form of Direction and an Attendance Card with instructions on how to vote in the post. Fidelity will no longer be providing paper forms of direction. All Fidelity Platform Investors will receive a letter setting out the process.

Paperless Proxy Voting

Link Asset Services, the Registrar, will also be providing an online process for voting on the resolutions to be proposed at the Company's AGM. Details of how this will work are included in the Notes to the Notice of Meeting on pages 68 and 69. There is an option to contact the Registrar to receive a paper proxy form should this be preferred or required.

If you have sold, transferred or otherwise disposed of all your shares in the Company, you should pass this document, together with any other accompanying documents as soon as possible to the purchaser or transferee, or to the stockbroker, bank or other agent through whom the sale or transfer was effected, for onward transmission to the purchaser or transferee.

At the AGM on 12 December 2018, resolutions will be proposed relating to the items of business set out in the Notice of Meeting on pages 67 and 68, including the items of special business summarised opposite.

Authority to Allot Shares

Resolution 11 is an ordinary resolution and provides the Directors with a general authority to allot securities in the Company up to an aggregate nominal value of £1,353,222. If passed, this resolution will enable the Directors to allot a maximum of 27,064,448 ordinary shares which represents approximately 10% of the issued ordinary share capital of the Company (including Treasury shares) as at 31 October 2018 and to impose any limits or restrictions and make any arrangements which they consider necessary or appropriate to deal with Treasury shares, fractional entitlements, record dates, legal, regulatory or practical problems in, or under the laws of, any territory or any other matter. The Directors would not intend to use this power unless they considered that it was in the interests of Shareholders to do so. Any shares issued would be at NAV per share or at a premium to NAV per share.

Authority to Disapply Pre-emption Rights

Resolution 12 is a special resolution disapplying pre-emption rights and granting authority to the Directors, without the need for further specific Shareholder approval, to make allotments of equity securities or sale of Treasury shares for cash up to an aggregate nominal value of £1,353,222 (including Treasury shares) (approximately 10% of the issued ordinary share capital of the Company as at 31 October 2018 and equivalent to 27,064,448 ordinary shares).

Authority to Repurchase Shares

Resolution 13 is a special resolution which renews the Company's authority to purchase up to 14.99% 40,064,444 of ordinary shares in issue (excluding Treasury shares) on 31 October 2018 either for immediate cancellation or for retention as Treasury shares at the determination of the Directors. Once shares are held in Treasury, the Directors may only dispose of them in accordance with the relevant legislation by subsequently selling the shares for cash or by cancelling the shares. Purchases of ordinary shares will be at the discretion of the Directors and within guidelines set from time to time by them in the light of prevailing market conditions. Purchases will only be made in the market at prices below the prevailing NAV per share.

Recommendation: The Board considers that each of the resolutions is likely to promote the success of the Company and is in the best interests of the Company and its Shareholders as a whole. The Directors unanimously recommend that you vote in favour of the resolutions as they intend to do in respect of their own beneficial holdings.

By Order of the Board
FIL Investments International
 Secretary
 31 October 2018

Corporate Governance Statement

“Corporate governance” is the process by which the board of directors of a company look after shareholders’ interests and by which it endeavours to enhance those interests (often referred to as “shareholder value”). Shareholders hold the Directors responsible for the stewardship of a company’s affairs, delegating authority to the Directors to manage the Company on their behalf and holding them accountable for its performance.

This report, which forms part of the Directors’ Report, explains how the Directors of Fidelity Special Values PLC deal with that responsibility, authority and accountability.

Corporate Governance Codes

The Board follows the principles of the UK Corporate Governance Code (the “UK Code”) issued by the Financial Reporting Council (the “FRC”) in 2016 and the AIC’s Code of Corporate Governance (the “AIC Code”) issued by the Association of Investment Companies (the “AIC”) in 2016. The FRC has confirmed that investment companies which report against the AIC Code and which follow the AIC Guide on Corporate Governance will meet their obligations under the UK Code and paragraph 9.8.6 of the Listing Rules. This statement, together with the Statement of Directors’ Responsibilities on page 37, set out how the principles have been applied.

The AIC Code and the AIC Guide can be found on the AIC’s website at www.theaic.co.uk and the UK Code on the FRC’s website at www.frc.org.uk.

Statement of Compliance

The Company has complied with the recommendations of the AIC Code and the relevant provisions of the UK Code for the year under review and up to the date of this report, except in relation to the UK Code provisions relating to the role of the chief executive; executive directors’ remuneration; and the need for an internal audit function. For the reasons set out in the AIC Guide, and as explained in the UK Code, the Board considers that these provisions are not relevant to the position of Fidelity Special Values PLC, as it is an externally managed investment company and has no executive directors, employees or internal operations.

The Corporate Governance of an Investment Trust Company

The corporate governance of most investment companies is different from most other commercial companies in one important respect: they do not employ their own people as management but instead the services of a fund management company. This affects the way investment companies are governed but not the purpose of their governance. Given that the Manager’s business is not dedicated solely to the interests of investment companies and their Shareholders, investment company boards must be largely independent of management. However, it must have knowledge and experience of both fund management and investment company management. Fidelity Special Values PLC was established and is managed and promoted by its Manager, which is therefore one of the main reasons some Shareholders choose to invest in the Company’s shares. It follows that it is an important aspect of the corporate governance of Fidelity Special Values PLC that its Manager should be party to the responsibility, authority and accountability to those investing in their management.

The Corporate Governance Policies and Modus Operandi of Fidelity Special Values PLC

The corporate governance of any investment company, while following the guidelines of the AIC Code, will vary in certain respects depending on its own circumstances. The Board of Fidelity Special Values PLC has considered its own circumstances and determined its own corporate governance policies and modus operandi.

In this section we have outlined the corporate governance policies and modus operandi through the following three aspects of corporate governance: Responsibility, Authority and Accountability. It is first of all important that Shareholders have confidence in the Board of Directors, whom they hold responsible and accountable for the Company’s affairs.

In determining the guidelines for the composition of the Board, the Directors believe that there should be a clear majority of Board members (including the Chairman), who are independent of management, and that within the Board there is understanding of and experience of investment management, investment company management, the investment objective of the Company, marketing, general business experience and finally of Fidelity’s investment philosophy and its operations.

The Directors recognise that any individual employed by or materially associated with the Manager cannot be regarded as independent. Consequently, at any given time there has only ever been one Fidelity member serving as a Director on the Board. Details of the Directors’ current business associations are set out on page 26. All of the independent Directors are considered to be free from any business or other relationship which could materially interfere with the exercise of their independent judgement. In addition, all Directors are able to allocate sufficient time to the Company to discharge their responsibilities fully and effectively. The Board follows a procedure of notification of any interests that may arise as part of considering any potential conflicts.

All of the Directors are Non-Executive. Each Director’s individual independence, including that of the Chairman, has been assessed and confirmed, taking into consideration:

- integrity, commitment, intelligent challenge;
- independence of mind and character;
- experience and knowledge of investment trusts, of the investment business generally and of Fidelity;
- financial literacy;
- conflicts of interest; and
- performance as a Director.

	Regular Board Meetings	Nomination Committee Meetings	Audit Committee Meetings	Management Engagement Committee Meetings
Andy Irvine	5/5	1/1	n/a	1/1
Sharon Brown	4/5	1/1	3/3	1/1
Dean Buckley	5/5	1/1	3/3	1/1
Nigel Foster	5/5	1/1	3/3	1/1
Nicky McCabe	5/5	1/1	n/a	n/a

Figures indicate those meetings for which each Director was eligible to attend and attended in the year. Regular Board meetings exclude ad hoc meetings for formal approvals.

The Board considers the tenure of each Director annually. A Director may serve more than nine years, provided that such Director is considered by the Board to continue to be independent and provides experience that remains relevant. In addition, the Board decided in 2004 that each Director is subject to annual re-election by Shareholders.

The Board meets regularly to discharge its duties effectively and the table above gives the attendance record for the meetings held during the reporting year.

Responsibility

The responsibilities delegated by Shareholders to the Board of Directors include:

1. The stewardship and monitoring of the affairs of the Company, which includes the management of risk and the monitoring of the controls at work in the Company;
2. The promotion of the Company's prosperity so as to endeavour to maximise Shareholder value in the long term, which includes the responsibility for the appropriateness of the Company's investment objective, investment strategy and investment performance and for the Company's efforts in seeking to minimise the level and the volatility of the discount or premium at which the shares may sell in relation to the net asset value; and
3. Making recommendations to Shareholders (for their consideration at Annual General Meetings) on matters not delegated to the Board, which include the approval of the annual financial statements, the election and re-election of Directors and the appointment of the Independent Auditor.

Authority

The Board is furnished by Shareholders with the authority to manage the Company on their behalf, in order to discharge the responsibilities outlined above. The Board, being independent of the Manager (by majority), carries out its duties through Board meetings and Board appointed Committee meetings. The most important aspect of Directors' duties concerns the management of the Company's portfolio of assets and of the risk profile of its balance sheet. While the day-to-day investment management is delegated to the Manager, there are certain decisions retained

and made by the Directors, including the payment of dividends, the share issue and share repurchase guidelines and the derivatives and gearing policies.

In structuring Board meetings, the Directors try to concentrate as much as possible of their regular Board meetings on (i) investment matters (including strategy, investment policy, gearing and derivatives policies, portfolio and stock reviews, portfolio turnover, monitoring performance etc); and (ii) Shareholder value matters (including monitoring the discount, share issues and share repurchases and the marketing of the Fidelity Platform Investors). The Chairman is responsible for the promotion of a culture of openness and debate, for ensuring that the Directors receive accurate, timely and clear information and for ensuring that there is adequate time available for the discussion of agenda items, particularly strategic issues.

The Board meets regularly with the Company's Broker to discuss Shareholder value and investor relation matters. The Manager meets with the larger Shareholders on a regular basis and reports back to the Board on those meetings. The Chairman also attends some of these meetings. Key representatives of the Manager attend each Board meeting, enabling the Board to discuss business matters further.

The Board discharges certain of its corporate governance responsibilities through three Committees as set out below and on page 32. Written terms of reference of each Committee are available on the Company's pages of the Manager's website at www.fidelityinvestmenttrusts.com.

The Audit Committee

The Audit Committee consists of Sharon Brown as Chairman, Dean Buckley and Nigel Foster. Full details of the Audit Committee are disclosed in the Report of the Audit Committee on pages 38 and 39.

The Management Engagement Committee

The Management Engagement Committee is chaired by Andy Irvine and consists of all the Directors except Nicky McCabe due to her past connection with Fidelity. It meets at least once a year and reports to the Board, making recommendations where appropriate. It is charged with reviewing and monitoring the performance of the Manager and for ensuring that the terms of

Corporate Governance Statement continued

the Company's Management Agreement remains competitive and reasonable for Shareholders.

Ahead of the AGM, the Committee has reviewed the performance of the Manager and the fee basis and also that of its peers. Following the review of the fee, a new fee arrangement, effective from 1 September 2018 is in place, details of which are in the Chairman's Statement on page 3. The Committee noted the Company's good long term performance record and the commitment, quality and continuity of the team responsible for the Company, and concluded that it was in the interests of Shareholders that the appointment of the Manager should continue.

The Nomination Committee

The Nomination Committee is chaired by Andy Irvine and consists of all the Directors. It meets at least once a year and reviews the composition, size and structure of the Board. The Committee is responsible for succession planning and it is charged with nominating new Directors for consideration by the Board, and in turn for approval by Shareholders.

In respect of new Directors, the Board believes that it is important in the search for and recommendation of a candidate to the Board that it is controlled by the independent Directors who form the majority of this Committee. The Committee carries out its candidate search from the widest possible pool of talent against a set of objective criteria on the basis of merit, with due regard for the benefits of diversity, including gender, on the Board.

Upon appointment, each Director is provided with all relevant information regarding the Company and receives an induction on the investment operation and administration functions of the Company, together with a summary of their duties and responsibilities. Directors are encouraged to keep up to date and attend training courses on matters which are directly relevant to their involvement with the Company. They also receive regular briefings from, amongst others, the AIC, the Independent Auditor and the Company Secretary, regarding any proposed developments or changes in law or regulations that could affect the Company and/or the Directors.

The Committee also considers the re-election of Directors ahead of each AGM. It has considered the performance and contribution of each Director and has recommended their continued service to the Company. This has been endorsed by the Board which recommends their reappointment by Shareholders at the forthcoming AGM. The terms and conditions of appointment of Directors are available for inspection at the registered office of the Company and will be available prior to the next AGM.

Ahead of each AGM, an evaluation of the Board and its Committees takes place in the form of a written questionnaire and one to one discussions. The performance of the Chairman is evaluated by the other Directors. The Company Secretary and Manager also participate in the evaluation process to provide all round feedback to the Board. The process is considered to be constructive in terms of identifying areas for improving the functioning and performance of the Board and action is taken

on the basis of the results. As a consequence of this process, the Board has decided not to undertake an externally facilitated evaluation.

Accountability

Given that the Shareholders entrust the Board of Directors with the management of the Company's affairs, it is necessary that the Board accounts for itself to Shareholders. The process of accountability involves providing all the necessary information for Shareholders to make judgements about the Board's stewardship and performance through a full and informative annual financial report, a half-yearly financial report, the presentation of the Company's results and future prospects at the AGM and accessibility to the Board at any time via the Company Secretary.

The AGM is the occasion when the Board accounts for itself in a public meeting. It regards any bona fide issue that any Shareholder raises as one that should be put to all Shareholders at the AGM so that all those attending can hear any concerns expressed in an open forum and make their own judgement. The AGM provides Shareholders with an opportunity to vote on certain issues that are not ultimately delegated to the Board. This includes the election and re-election of Directors every year in addition to the normal matters of approving the financial statements, the appointment of the Independent Auditor, the issue of new shares and the repurchase of shares. Your Board has an established policy that enables Shareholders to decide whether they wish to continue the Company's existence by putting a "continuation vote" before the Shareholders at every third AGM. The next vote will be at the AGM in 2019.

Directors' Remuneration

The level of Directors' fees is determined by the Board as a whole. Full details are disclosed in the Directors' Remuneration Report on pages 34 and 35.

Senior Independent Director

The Board has appointed Sharon Brown as Senior Independent Director. She fulfils the role as a sounding board for the Chairman, an intermediary for the other Non-Executive Directors as necessary, and to act as a channel of communication for Shareholders in the event that contact through the Chairman is inappropriate.

The Company Secretary

The Board has access to the advice and services of the Company Secretary. The Company Secretary is responsible to the Board for ensuring that Board procedures are followed and that applicable rules and regulations are complied with. The Directors also have the ability to take independent professional advice, if necessary, at the Company's expense.

Supply of Information

The Board meeting papers are the key source of regular information for the Board, the contents of which are determined by the Board and contain sufficient information on the financial condition of the Company. The Board receives this information in a timely manner and of a quality appropriate to enable it to discharge its duties.

Risk Management and Internal Controls

The Board is responsible for the Company's systems of risk management and of internal controls and for reviewing their effectiveness. The review takes place at least once a year. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives and can only provide reasonable, but not absolute, assurance against material misstatement or loss.

The Board determines the nature and extent of any risks it is willing to take in order to achieve its strategic objectives. It is responsible for the design, implementation and maintenance of controls and procedures to safeguard the assets of the Company although these tasks have been delegated on a day-to-day basis to the Manager. The system extends to operational and compliance controls and risk management. Clear lines of accountability have been established between the Board and the Manager. The Manager provides regular reports on controls and compliance issues to the Audit Committee and the Board. In carrying out its review, the Audit Committee has regard to the activities of the Manager, the Manager's compliance and risk functions and the Independent Auditor and also includes consideration of internal controls of similar reports issued by the other service providers.

The Board, assisted by the Manager, has undertaken a rigorous risk and controls assessment. It confirms that this is an effective ongoing process in order to identify, evaluate and manage the Company's principal business and operational risks, and that it has been in place throughout the year ended 31 August 2018 and up to the date of this report. This process is in accordance with the FRC's "Risk Management, Internal Control and Related Financial and Business Reporting" guidance.

The Board has reviewed the need for an internal audit function and has determined that the systems and procedures employed by the Manager, which are subject to inspection by the Manager's internal and external audit processes, provide sufficient assurance that a sound system of internal controls is maintained to safeguard Shareholders' investments and the Company's assets. An internal audit function, specific to the Company, is therefore considered unnecessary. The Audit Committee meets the Manager's internal audit representative at least once a year. It receives a summary of the Manager's externally audited internal controls report on an annual basis.

Whistle-Blowing Procedure

Part of the Managers' role in ensuring the provision of a good service pursuant to the Management Agreement, includes the ability for employees of Fidelity to raise concerns through a workplace concerns escalation policy (or "whistle-blowing procedure"). Fidelity has advised the Board that it is committed to providing the highest level of service to its customers and to applying the highest standards of quality, honesty, integrity and probity. The aim of the policy is to encourage employees and others working for Fidelity to assist the Company in tackling fraud, corruption and other malpractice within the organisation and in setting standards of ethical conduct. This policy has been endorsed accordingly by the Board.

Bribery Act 2010

The Company is committed to carrying out business fairly, honestly and openly. The Board recognises the benefits this has to reputation and business confidence. The Board, the Manager, the Manager's employees and others acting on the Company's behalf, are expected to demonstrate high standards of behaviour when conducting business.

The Board acknowledges its responsibility for the implementation and oversight of the Company's procedures for preventing bribery, and the governance framework for training, communication, monitoring, reporting and escalation of compliance together with enforcing action as appropriate. The Board has adopted a zero tolerance policy in this regard.

Criminal Finances Act 2017

The Company is subject to the Criminal Finances Act 2017 and follows a zero tolerance policy to tax evasion and its facilitation. The Directors are fully committed to complying with all legislation and appropriate guidelines designed to prevent tax evasion and the facilitation of tax evasion in the jurisdictions in which the Company, its service providers, counterparties and business partners operate.

On behalf of the Board

Directors' Remuneration Report

Chairman's Statement

The Directors' Remuneration Report for the year ended 31 August 2018 has been prepared in accordance with the Large & Medium-sized Companies & Groups (Accounts & Reports) (Amendment) Regulations 2013 (the "Regulations"). As the Board is comprised entirely of Non-Executive Directors and has no chief executive officer and employees, many parts of the Regulations, in particular those relating to chief executive officer pay and employee pay, do not apply and are therefore not disclosed in this report.

An ordinary resolution to approve both the Directors' Remuneration Report and the Remuneration Policy will be put to Shareholders at the AGM on 12 December 2018. The Company's Auditor is required to audit certain sections of this report and where such disclosures have been audited, the specific section has been indicated as such. The Auditor's opinion is included in its report on pages 40 to 44.

Directors' Remuneration

The annual fee structure with effect from 1 September 2018 is as follows: Chairman - £41,000; Chairman of the Audit Committee - £31,750; and Director - £27,000. This is the first fee change since 1 January 2015 and represents an increase of 5.9% on the previous fee. The inflation rate over the same period has been 7.8%. Increases in Directors' remuneration are made to ensure that they remain competitive and sufficient to attract and retain the quality of Directors needed to manage the Company successfully.

The Remuneration Policy

The Remuneration Policy is subject to a binding vote, in the form of an ordinary resolution at every third Annual General Meeting ("AGM"). A binding vote means that if it is not successful the Board will be obliged to revise the policy and seek further Shareholder approval at a General Meeting specially convened for that purpose. The current policy, which was approved at last year's AGM, is set out below.

The Company's Articles of Association limit the aggregate fees payable to the Directors to a total of £200,000 per annum. Subject to this overall limit, it is the Board's policy to determine the level of Directors' fees having regard to the time spent by them on the Company's affairs; the level of fees payable to non-executive directors in the industry generally; the requirement to attract and retain individuals with suitable knowledge and experience; and the role that individual Directors fulfil. Other than fees and reasonable out-of-pocket expenses incurred in attending to the affairs of the Company, the Directors are not eligible for any performance related pay or benefits, pension related benefits, share options, long term incentive schemes, or other taxable benefits. The Directors are not entitled to exit payments and are not provided with any compensation for loss of office. Directors' fees are paid monthly in arrears. Directors do not serve a notice period if their appointment were to be terminated. The level of Directors' fees is determined by the whole Board. Directors do not vote on their own individual fees.

The Board reviews the Company's Remuneration Policy and implementation on an annual basis. Reviews are based on information provided by the Company's Manager, and research from third parties and it includes information on the fees of other similar investment trusts.

No Director has a service contract with the Company. New Directors are provided with a letter of appointment which, amongst other things, provides that their appointment is subject to the Companies Act 2006 and the Company's Articles of Association. Copies of the Directors' letters of appointment are available at each of the Company's AGMs and can be obtained from the Company's registered office.

The Company's remuneration policy will apply to new Board members, who will be paid the equivalent amount of fees as current Board members.

Voting on the Remuneration Policy

The Remuneration Policy (the "Policy"), as set out above, was approved at the AGM on 11 December 2017 with 99.05% of votes cast in favour, 0.45% of votes cast against and 0.50% of votes were withheld. The next vote will be put to Shareholders at the AGM in 2020. The Policy has been followed throughout the year ended 31 August 2018 and up to the date of this report.

Voting on the Directors' Remuneration Report

At the AGM held on 11 December 2017, 99.00% of votes were cast in favour of the Directors' Remuneration Report for the year ended 31 August 2017, 0.48% of votes were cast against and 0.52% of votes were withheld.

The Directors' Remuneration Report for the year ended 31 August 2018 will be put to Shareholders at the AGM on 12 December 2018, and the votes cast will be disclosed on the Company's pages of the Manager's website at: www.fidelityinvestmenttrusts.com.

Single Total Figure of Remuneration

The single total aggregate Directors' remuneration for the year under review was £150,450 (2017: £130,944). This includes expenses incurred by Directors in attending to the affairs of the Company and are considered by HMRC to be a taxable benefit. Information on individual Directors' fees and taxable benefits (Directors' expenses) are disclosed in the table on the next page.

	2019	2018	2018	2018	2017	2017	2017
	Projected Fees (£)	Fees (Audited) (£)	Taxable Benefits (Audited) (£)	Total (Audited) (£)	Fees (Audited) (£)	Taxable Benefits (Audited) (£)	Total (Audited) (£)

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Annual Report and Financial Statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the Financial Statements in accordance with UK Generally Accepted Accounting Practice, including FRS 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland. The Financial Statements are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss for the period.

In preparing these Financial Statements the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the Financial Statements; and
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that adequate accounting records are kept which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the Financial Statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under applicable law and regulations the Directors are also responsible for preparing a Strategic Report, a Directors' Report, a Corporate Governance Statement and a Directors' Remuneration Report which comply with that law and those regulations.

The Directors have delegated responsibility for the maintenance and integrity of the corporate and financial information included on the Company's pages of the Manager's website at www.fidelityinvestmenttrusts.com to the Manager. Visitors to the website need to be aware that legislation in the UK governing the preparation and dissemination of the Financial Statements may differ from legislation in their jurisdictions.

The Directors confirm that to the best of their knowledge:

- The Financial Statements, prepared in accordance with FRS 102, give a true and fair view of the assets, liabilities, financial position and profit of the Company; and
- The Annual Report includes a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties it faces.

The Directors consider that the Annual Report and Financial Statements, taken as a whole, are fair, balanced and understandable and provide the information necessary for Shareholders to assess the Company's performance, business model and strategy.

Approved by the Board on 31 October 2018 and signed on its behalf by:

Andy Irvine
Chairman

Report of the Audit Committee

I am pleased to present the formal report of the Audit Committee (the "Committee") to Shareholders.

The primary responsibilities of the Committee are to ensure the integrity of the Company's financial reporting, the appropriateness of the risk management and internal controls processes and the effectiveness of the independent audit process for the year ended 31 August 2018. This report details how we carry out this role.

Composition and Meetings

The members of the Committee are myself as Chairman, Dean Buckley and Nigel Foster. Andy Irvine is not a member of the Committee but is invited to attend the Committee meetings. All Committee members are independent Non-Executive Directors, and their skills and experience are set out on page 26. The Committee considers that collectively the members have sufficient recent and relevant sector and financial experience to fully discharge their responsibilities.

The Committee met three times during this reporting year. The Committee invites the Company's Auditor and personnel from the Manager's financial, risk and internal audit functions to attend and report to the Committee on relevant matters. During the year, I also met privately with the Auditor and a representative from the Manager's risk function to give them an opportunity to raise any issues without management present. After each Committee meeting, I report to the Board on the main items discussed at the meeting.

Ahead of each AGM, the Committee's performance is evaluated as part of the overall Board evaluation as reported on page 32.

Significant issues considered by the Committee during the year

The Annual Report and Financial Statements are the responsibility of the Board and the Statement of Directors' Responsibilities can be found on page 37. The Audit Committee advises the Board on the form and content of the Annual Report and Financial Statements, any issues which may arise in relation to these and any specific areas which require judgement.

Summarised below are the most significant issues considered by the Committee in respect of these Financial Statements, and how these issues were addressed.

Role and Responsibilities of the Audit Committee

The Committee's authority and duties are defined in its terms of reference, which were reviewed during the year and are available on the Company's pages of the Manager's website (www.fidelityinvestmenttrusts.com). The principal activities carried out during the year were:

- **Financial reporting:** we considered the Company's financial reports, including the significant accounting issues and the appropriateness of the accounting policies adopted. We considered and are satisfied that, taken as a whole, the 2018 Annual Report is fair, balanced and understandable and provides the information necessary for Shareholders to assess the Company's performance, business model and strategy;
- **Internal audit:** we considered the scope of the internal audit of the Manager and the subsequent findings from this work, receiving regular reports from the internal audit function of the Manager. The Committee also monitored progress in the implementation of the Manager's internal audit recommendations;
- **Risk and internal control:** we dedicated a full Committee meeting to the consideration of the key risks facing the Company and the adequacy and effectiveness of the internal controls and risk management processes; and
- **External Auditor:** we considered the independence, effectiveness and fees of the Auditor, as detailed later in this report.

Recognition of Investment Income

Investment income is recognised in accordance with accounting policy Note 2(e) on page 48. The Manager provided detailed revenue forecasts which the Committee reviewed and sought explanations for any significant variances to these forecasts. The Committee also considered the allocation of special dividends between revenue and capital. The Committee reviewed internal audit and compliance monitoring reports received from the Manager to satisfy itself that adequate systems were in place for properly recording the Company's investment income. Investment income was also tested and reported on by the Auditor.

Valuation, existence and ownership of investments (including derivatives and unlisted investments)

The valuation of investments (including derivatives) is in accordance with accounting policy Notes 2(k) and 2(l) on pages 49 and 50. The Committee took comfort from the Depositary's regular oversight reports that investment related activities were conducted in accordance with the Company's investment policy. The Committee received reports from the Manager and the Depositary that the valuation, existence and ownership of investments had been verified. In addition, the Committee received confirmation from the Auditor that it had tested the valuation of the Company's investments and derivatives by reference to independent sources and had also confirmed the existence and ownership of the investments with the Company's Custodian and that of the derivatives with the Company's counterparties. Unlisted investments are appraised by Fidelity's Fair Value Pricing ("FFVP") Committee in accordance with UK GAAP and International Private Equity and Venture Capital Valuation Guidelines. The Committee receives information from the FFVP Committee and reviews and approves the proposed valuation methodologies for all unlisted investments.

Independence and Effectiveness of the Audit Process

Ernst & Young LLP acted as the Company's Independent Auditor for the year ended 31 August 2018. Fees paid to the Auditor for the audit of the Company's Financial Statements are disclosed in Note 5 on page 52.

With regard to the independence of the Auditor, the Committee reviewed:

- The audit plan for the year, including the audit team and approach to significant risks;
- The Auditor's arrangements for any conflicts of interest;
- The extent of any non-audit services*; and
- The statement by the Auditor that it remains independent within the meaning of the regulations and their professional standards.

* There were no non-audit services provided to the Company during the reporting year and as at the date of this report.

With regard to the effectiveness of the audit process, the Committee reviewed:

- The fulfilment by the Auditor of the agreed audit plan;
- The audit findings report issued by the Auditor on the audit of the Annual Report and Financial Statements for the year ended 31 August 2018; and
- Feedback from the Manager on the audit of the Company.

The Committee concluded that the Auditor continues to remain independent and the audit process remains effective.

Auditor's Appointment and Audit Tenure

Ernst & Young LLP was appointed as the Company's Auditor on 30 November 2015 following a formal audit tender process in 2015. The Committee reviewed the Auditor's independence and the effectiveness of the audit process prior to recommending its reappointment for a further year. The Auditor is required to rotate audit partners every five years and this is the third year that the audit partner, Matthew Price, has been in place. The Committee will continue to review the Auditor's appointment each year to ensure that the Company continues to receive an optimal level of service. There are no contractual obligations that restricts the Company's choice of auditor.

Sharon Brown

Chairman of the Audit Committee
31 October 2018

Independent Auditor's Report to the Members of Fidelity Special Values PLC

Opinion

We have audited the Financial Statements of Fidelity Special Values PLC for the year ended 31 August 2018 which comprise the Income Statement, the Balance Sheet, the Statement of Changes in Equity, and the related Notes 1 to 20, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the Financial Statements:

- give a true and fair view of the Company's affairs as at 31 August 2018 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Statements section of our report below. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the Financial Statements in the UK, including the FRC's Ethical Standard as applied to public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to principal risks, going concern and viability statement

We have nothing to report in respect of the following information in the Annual Report, in relation to which the ISAs (UK) require us to report to you whether we have anything material to add or draw attention to:

- the disclosures in the Annual Report set out on pages 11 and 12 that describe the principal risks and explain how they are being managed or mitigated;
- the Directors' confirmation set out on page 11 in the Annual Report that they have carried out a robust assessment of the principal risks facing the entity, including those that would threaten its business model, future performance, solvency or liquidity;
- the Directors' statement set out on page 27 in the Financial Statements about whether they considered it appropriate to adopt the going concern basis of accounting in preparing them, and their identification of any material uncertainties to the entity's ability to continue to do so over a period of at least twelve months from the date of approval of the Financial Statements;
- whether the Directors' statement in relation to going concern required under the Listing Rules in accordance with Listing Rule 9.8.6R(3) is materially inconsistent with our knowledge obtained in the audit; or
- the Directors' explanation set out on page 12 in the Annual Report as to how they have assessed the prospects of the entity, over what period they have done so and why they consider that period to be appropriate, and their statement as to whether they have a reasonable expectation that the entity will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

Overview of our audit approach

Key audit matters	<ul style="list-style-type: none"> • Incomplete or inaccurate investment and derivative income recognition including incorrect allocation of special dividends between revenue and capital • Valuation, existence and ownership of investments and derivatives
Materiality	<ul style="list-style-type: none"> • Overall materiality of £7.25m (2017: £6.70m) which represents 1% of net asset value of the Company as of 31 August 2018.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the

engagement team. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in our opinion thereon, and we do not provide a separate opinion on these matters.

Risk	Our response to the risk	Key observations communicated to the Audit Committee
<p>Incomplete or inaccurate investment and derivative income recognition including incorrect allocation of special dividends between revenue and capital</p> <p><i>Refer to the Report of the Audit Committee (page 38); Accounting policies (page 48); and Note 3 of the Financial Statements (page 51)</i></p> <p>The Company has reported investment and derivative income of £22.6m for the year (2017: £21.1m).</p> <p>The investment and derivative income receivable by the Company during the year directly affects the Company's ability to pay a dividend to Shareholders. There is a risk that income recognised incorrectly through failure to recognise proper dividend income entitlements.</p> <p>We identified the allocation of special dividends between revenue and capital to be a fraud risk due to the level of judgement involved in this allocation.</p> <p>Special dividends can be included within either the capital or revenue columns of the Income Statement, depending on the commercial circumstances behind the payments.</p> <p>During the year the Company has received 12 special dividends amounting to £7.90m, out of which 7 special dividends amounting to £7.02m was allocated to capital.</p> <p>Given this, we considered there to be a potential fraud risk in relation to the allocation of special dividends between revenue and capital, in accordance with AIC SORP guidance, in this area of our audit.</p>	<p>We performed the following procedures:</p> <ul style="list-style-type: none"> • Walked through the revenue recognition process to obtain an understanding of the design and implementation of the controls; • Agreed a sample of investment and derivative dividends to the corresponding announcement made by the investee company, recalculated the dividend amount received and agreed cash received to bank statements; • Agreed, for a sample of investee companies, the dividend announcements made by the investee company from an external third party source to the income entitlements recorded by the Company; • Agreed a sample of accrued dividends to an independent source and to post year end bank statement to assess the recoverability of these amounts; • For a sample selected, we compared the exchange rate used to translate the investment and derivative dividend income received in foreign currency to an independent source; • Reviewed the income report and the investment ledger report to identify material special dividends received in the year; • Agreed, for a sample of investee companies, the dividend declared to the announcements made by the investee company to conclude whether it is a special or ordinary dividend; • For all material special dividends, considered the recognition criteria applied to the special dividends received during the year and their classification as revenue or capital. 	<p>The results of our procedures identified no material errors in the investment and dividend income recognition and allocation of special dividends between revenue and capital.</p> <p>We confirmed the appropriate accounting classification adopted for material special dividends, including classification of £7.02m as capital.</p>

Independent Auditor's Report to the Members of Fidelity Special Values PLC continued

Risk	Our response to the risk	Key observations communicated to the Audit Committee
<p>Valuation, existence and ownership of investments and derivatives</p> <p><i>Refer to the Report of the Audit Committee (page 39; Accounting policies (pages 49 and 50); and Notes 10 and 11 of the Financial Statements (pages 54 to 56)</i></p> <p>The valuation of investments and derivatives as at the year-end was £704.56m (2017: £655.60m), comprising £704.99m of investments and £(0.43)m of net derivatives (2017: £654.0m of investments and £1.6m of net derivatives).</p> <p>The valuation of the assets held in the investment portfolio is the key driver of the Company's net asset value and total return.</p> <p>Total unquoted investments were £2.5m as at the year end, comprising £1.5m of investments and £1.0m of derivatives.</p> <p>Incorrect asset pricing or a failure to maintain proper legal title of the assets held by the Company could have a significant impact on portfolio valuation and, therefore, the return generated for Shareholders.</p>	<p>We performed the following procedures:</p> <ul style="list-style-type: none"> Walked through the investment valuation process to obtain an understanding of the design of the controls; Independently valued 100% of the investments and derivatives prices in the portfolio using independent pricing sources; Reviewed the valuation methodologies used by the Fair Value Committee and confirmed they were performed in accordance with FRS102 and International Private Equity and Venture Capital Valuation Guidelines; For those investments priced in currencies other than Sterling we compared the exchange rates to an independent source; and Agreed 100% of the holdings in the investment portfolio and derivatives to third party confirmations received from the Custodian or Brokers. 	<p>The results of our procedures identified no material error in the value, existence and ownership of investments and derivatives.</p> <p>For unquoted investments we considered the recent transaction prices to be an appropriate basis for estimating the fair value.</p> <p>We noted no unreconciled differences between the Custodian, Brokers or Depository confirmations and the Company's underlying financial records.</p>

There were no changes in key audit matters in comparison with the prior year.

An overview of the scope of our audit

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the Company. This enables us to form an opinion on the Financial Statements. We take into account size, risk profile, the organisation of the Company and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed.

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the Financial Statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for the Company to be £7.25m (2017: £6.70m), which is 1% (2017: 1%) of Net Asset Value of

the Company as of 31 August 2018. We believe that Net Assets Value provides the most important financial metric on which Shareholders judge the performance of the Company and it is a generally accepted auditing practice for investment trust audits.

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgement was that performance materiality was 75% (2017: 75%) of our planning materiality, namely £5.44m (2017: £5.1m). We have set performance materiality at this percentage due to past experience of the audit that indicates a lower risk of misstatements, both corrected and uncorrected.

Given the importance of the distinction between revenue and capital for the Company, we have also applied a separate testing threshold for the revenue column of the Income Statement of £0.78m (2017: £0.70m) being 5% of the Net return on ordinary activities before taxation.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Audit Committee that we would report to them all uncorrected audit differences in excess of £0.36m (2017: £0.30m), which is set at 5% of planning materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

Other information

The other information comprises the information included in the Directors' Report set out on page 28, other than the Financial Statements and our Auditor's report thereon. The Directors are responsible for the other information.

Our opinion on the Financial Statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the Financial Statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

In this context, we also have nothing to report in regard to our responsibility to specifically address the following items in the other information and to report as uncorrected material misstatements of the other information where we conclude that those items meet the following conditions:

- **Fair, balanced and understandable, set out on page 37** – the statement given by the Directors that they consider the Annual Report and Financial Statements taken as a whole is fair, balanced and understandable and provides the information necessary for Shareholders to assess the Company's performance, business model and strategy, is materially inconsistent with our knowledge obtained in the audit; or
- **Audit Committee reporting, set out on page 38** – the section describing the work of the Audit Committee does not appropriately address matters communicated by us to the Audit Committee; or
- **Directors' Statement of Compliance with the UK Corporate Governance Code, set out on page 30** – the parts of the Directors' Statement required under the Listing Rules relating to the Company's compliance with the UK Corporate Governance Code containing provisions specified

for review by the auditor in accordance with Listing Rule 9.8.10R(2) do not properly disclose a departure from a relevant provision of the UK Corporate Governance Code.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion the part of the Directors' remuneration report to be audited has been properly prepared in accordance with the Companies Act 2006.

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and the Directors' report for the financial year for which the Financial Statements are prepared is consistent with the Financial Statements; and
- the Strategic report and Directors' reports have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report or Directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the Financial Statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of Directors

As explained more fully in the Statement of Directors' Responsibilities set out on page 37, the Directors are responsible for the preparation of the Financial Statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Independent Auditor's Report to the Members of Fidelity Special Values PLC continued

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

The objectives of our audit, in respect to fraud, are: to identify and assess the risks of material misstatement of the Financial Statements due to fraud; to obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement due to fraud, through designing and implementing appropriate responses; and to respond appropriately to fraud or suspected fraud identified during the audit. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the Company and determined that the most significant are the Companies Act 2006, the Listing Rules, the UK Corporate Governance Code and Section 1158 of the Corporation Tax Act 2010.
- We understood how Fidelity Special Values PLC is complying with those frameworks through discussions with the Audit Committee and the Company Secretary and review of the Company's documented policies and procedures.
- We assessed the susceptibility of the Company's Financial Statements to material misstatement, including how fraud might occur by considering the key risks impacting the Financial Statements.
- Based on this understanding, we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved review of the reporting to the Directors with respect to the application of the documented policies and procedures and review of the Financial Statements to ensure compliance with the reporting requirements of the Company.

A further description of our responsibilities for the audit of the Financial Statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Other matters we are required to address

- We were appointed by the Company on 30 November 2015 to audit the Financial Statements for the year ending 31 August 2016 and subsequent financial periods.

The period of total uninterrupted engagement including previous renewals and reappointments is 3 years, covering the years ending 31 August 2016 to 31 August 2018.

- The non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company and we remain independent of the Company in conducting the audit.
- The audit opinion is consistent with the additional report to the Audit Committee.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an Auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

1 Principal Activity

Fidelity Special Values PLC is an Investment Company incorporated in England and Wales with a premium listing on the London Stock Exchange. The Company's registration number is 2972628, and its registered office is Beech Gate, Millfield Lane, Lower Kingswood, Tadworth, Surrey, KT20 6RP. The Company has been approved by HM Revenue & Customs as an Investment Trust under Section 1158 of the Corporation Tax Act 2010 and intends to conduct its affairs so as to continue to be approved.

2 Accounting Policies

The Company has prepared its Financial Statements in accordance with UK Generally Accepted Accounting Practice ("UK GAAP"), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", issued by the Financial Reporting Council ("FRC"). The Financial Statements have also been prepared in accordance with the Statement of Recommended Practice: Financial Statements of Investment Trust Companies and Venture Capital Trusts ("SORP") issued by the Association of Investment Companies ("AIC"), in November 2014 and updated in January 2017 with consequential amendments. The Company is exempt from presenting a Cash Flow Statement as a Statement of Changes in Equity is presented and substantially all of the Company's investments are highly liquid and are carried at market value.

a) Basis of accounting – The Financial Statements have been prepared on a going concern basis and under the historical cost convention, except for the measurement at fair value of investments and derivative instruments.

b) Significant accounting estimates and judgements – The Directors make judgements and estimates concerning the future. Estimates and judgements are continually evaluated and are based on historical experience and other factors, such as expectations of future events, and are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The judgements required in order to determine the appropriate valuation methodology of level 3 financial instruments have a risk of causing an adjustment to the carrying amounts of assets. These judgements include making assessments of the possible valuations in the event of a listing or other marketability related risks.

c) Segmental reporting – The Company is engaged in a single segment business and, therefore, no segmental reporting is provided.

d) Presentation of the Income Statement – In order to reflect better the activities of an investment company and in accordance with guidance issued by the AIC, supplementary information which analyses the Income Statement between items of a revenue and capital nature has been prepared alongside the Income Statement. The net revenue return after taxation for the year is the measure the Directors believe appropriate in assessing the Company's compliance with certain requirements set out in Section 1159 of the Corporation Tax Act 2010.

e) Income – Income from equity investments is accounted for on the date on which the right to receive the payment is established, normally the ex-dividend date. Overseas dividends are accounted for gross of any tax deducted at source. Amounts are credited to the revenue column of the Income Statement. Where the Company has elected to receive its dividends in the form of additional shares rather than cash, the amount of the cash dividend foregone is recognised in the revenue column of the Income Statement. Any excess in the value of the shares received over the amount of the cash dividend is recognised in the capital column of the Income Statement. Special dividends are treated as a revenue receipt or a capital receipt depending on the facts and circumstances of each particular case. Debt security interest is accounted for on an accruals basis and is credited to the revenue column of the Income Statement.

Derivative instrument income received from dividends on long contracts for difference ("CFDs") and derivative expenses paid as dividends on short CFDs are accounted for on the date on which the right to receive or make the payment is established, normally the ex-dividend date. The amount net of tax is credited to the revenue column of the Income Statement.

Interest received on CFDs, bank deposits and money market funds is accounted for on an accruals basis and is credited to the revenue column of the Income Statement.

f) Management fees and other expenses – Management fees and other expenses are accounted for on an accruals basis and are charged in full to the revenue column of the Income Statement.

g) Functional currency and foreign exchange – The Directors, having regard to the Company's share capital and the predominant currency in which its investors operate, have determined its functional currency to be UK sterling. UK sterling is also the currency in which the Financial Statements are presented. Transactions denominated in foreign currencies are reported in UK sterling at the rate of exchange ruling at the date of the transaction. Assets and liabilities in foreign currencies are translated at the rates of exchange ruling at the Balance Sheet date. Foreign exchange gains and losses arising on translation are recognised in the Income Statement as a revenue or a capital item depending on the nature of the underlying item to which they relate.

2 Accounting Policies continued

h) Finance costs – Finance costs comprise interest paid on long CFDs, which is accounted for on an accruals basis. Finance costs are charged in full to the revenue column of the Income Statement.

i) Taxation – The taxation charge represents the sum of current taxation and deferred taxation.

Current taxation is taxation suffered at source on overseas income less amounts recoverable under taxation treaties. Taxation is charged or credited to the revenue column of the Income Statement, except where it relates to items of a capital nature, in which case it is charged or credited to the capital column of the Income Statement. Where expenses are allocated between revenue and capital any tax relief in respect of the expenses is allocated between revenue and capital returns on the marginal basis using the Company's effective rate of corporation tax for the accounting period. The Company is an approved Investment Trust under Section 1158 of the Corporation Tax Act 2010 and is not liable for UK taxation on capital gains.

Deferred taxation is the taxation expected to be payable or recoverable on timing differences between the treatment of certain items for accounting purposes and their treatment for the purposes of computing taxable profits. Deferred taxation is based on tax rates that have been enacted or substantively enacted when the taxation is expected to be payable or recoverable. Deferred tax assets are only recognised if it is considered more likely than not that there will be sufficient future taxable profits to utilise them.

j) Dividend paid – Dividends payable to equity Shareholders are recognised when the Company's obligation to make payment is established.

k) Investments – The Company's business is investing in financial instruments with a view to profiting from their total return in the form of income and capital growth. This portfolio of investments is managed and its performance evaluated on a fair value basis, in accordance with a documented investment strategy, and information about the portfolio is provided on that basis to the Company's Board of Directors. Investments are measured at fair value with changes in fair value recognised in profit or loss, in accordance with the provisions of both Section 11 and Section 12 of FRS 102. The fair value of investments is initially taken to be their cost and is subsequently measured as follows:

- Listed investments are valued at bid prices, or last market prices, depending on the convention of the exchange on which they are listed; and
- Unlisted investments are investments which are not quoted, or are not frequently traded, and are stated at the Directors' best estimate of fair value. The Manager's Fair Value Committee, which is independent of the portfolio management team, provides a recommendation of fair values to the Directors based on recognised valuation techniques that take account of the cost of the investment, recent arm's length transactions in the same or similar investments and financial performance of the investment since purchase.

In accordance with the AIC SORP, the Company includes transaction costs, incidental to the purchase or sale of investments, within gains on investments in the capital column of the Income Statement and has disclosed these costs in Note 10.

l) Derivative instruments – When appropriate, permitted transactions in derivative instruments are used. Derivative transactions into which the Company may enter include long and short CFDs, futures and options. Derivatives are classified as other financial instruments and are initially accounted and measured at fair value on the date the derivative contract is entered into and subsequently measured at fair value as follows:

- Long and short CFDs – the difference between the strike price and the value of the underlying shares in the contract;
- Futures – the difference between contract price and the quoted trade price; and
- Options – the quoted trade price or the recent transaction price for the contract.

Notes to the Financial Statements continued

2 Accounting Policies continued

Derivative instruments continued

Where transactions are used to protect or enhance income, if the circumstances support this, the income and expenses derived are included in net income in the revenue column of the Income Statement. Where such transactions are used to protect or enhance capital, if the circumstances support this, the income and expenses derived are included: for long CFDs, as gains or losses on long CFDs, and for short CFDs, futures and options as gains or losses on short CFDs, futures and options in the capital column of the Income Statement. Any positions on such transactions open at the year end are reflected on the Balance Sheet at their fair value within current assets or creditors.

m) Debtors – Debtors include securities sold for future settlement, accrued income, taxation recoverable and other debtors incurred in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business, if longer) they are classified as current assets. If not, they are presented as non-current assets. They are recognised initially at fair value and, where applicable, subsequently measured at amortised cost using the effective interest rate method.

n) Amounts held at futures clearing houses and brokers – These are amounts held in segregated accounts as collateral on behalf of brokers and are carried at amortised cost.

o) Fidelity Institutional Liquidity Fund plc – The Company holds an investment in the Fidelity Institutional Liquidity Fund plc, a short term money market fund investing in a diversified range of short term instruments. It is a distributing fund and accordingly the interest earned is credited to the revenue column of the Income Statement.

p) Other creditors – Other creditors include securities purchased for future settlement, investment management fees and other creditors and expenses accrued in the ordinary course of business. If payment is due within one year or less (or in the normal operating cycle of the business, if longer) they are classified as current liabilities. If not, they are presented as non-current liabilities. They are recognised initially at fair value and, where applicable, subsequently measured at amortised cost using the effective interest rate method.

q) Capital reserve – The following are accounted for in the capital reserve:

- Gains and losses on the disposal of investments and derivative instruments;
- Changes in the fair value of investments and derivative instruments held at the year end;
- Foreign exchange gains and losses of a capital nature;
- Dividends receivable which are capital in nature; and
- Costs of repurchasing or issuing ordinary shares.

As a result of technical guidance issued by the Institute of Chartered Accountants in England and Wales in TECH 02/10: Guidance on the determination of realised profits and losses in the context of distributions under the Companies Act 2006, changes in the fair value of investments which are readily convertible to cash, without accepting adverse terms at the Balance Sheet date, can be treated as realised. Capital reserves realised and unrealised are shown in aggregate as capital reserve in the Statement of Changes in Equity and the Balance Sheet. At the Balance Sheet date the portfolio of the Company consisted of: investments listed on a recognised stock exchange and derivative instruments, contracted with counterparties having an adequate credit rating, and the portfolio was considered to be readily convertible to cash, with the exception of the level 3 investments which had unrealised investment holding losses of £594,000 (2017: gains £895,000).

3 Income

	year ended 31.08.18 £'000	year ended 31.08.17 £'000

1 Details of the breakdown of Directors' fees are disclosed in the Directors' Remuneration Report on page 35.

2 The VAT payable on audit fees is included in sundry other expenses.

6 Finance Costs

	year ended 31.08.18 £'000	year ended 31.08.17 £'000
Interest paid on long CFDs	342	346

7 Taxation on Return on Ordinary Activities

	year ended 31 August 2018 £'000	year ended 31 August 2017 £'000
a) Analysis of the taxation charge for the year		
Overseas taxation	177	284
Total taxation charge for the year (see Note 7b)	177	284

b) Factors affecting the taxation charge for the year

The taxation charge for the year is lower than the standard rate of UK corporation tax for an investment trust company of 19.00% (2017: 19.58%). A reconciliation of tax at the standard rate of UK corporation tax to the taxation charge for the year is shown below:

	year ended 31 August 2018 £'000	year ended 31 August 2017 £'000
Net return on ordinary activities before taxation	58,451	109,123
Net return on ordinary activities before taxation multiplied by the standard rate of UK corporation tax of 19.00% (2017: 19.58%)	11,106	21,366
Effects of:		
Capital gains not taxable*	(8,202)	(18,551)
Income not taxable	(3,595)	(3,368)
Excess management expenses	691	553
Overseas taxation	177	284
Total taxation charge for the year (see Note 7a)	177	284

* The Company is exempt from UK taxation on capital gains as it meets the HM Revenue & Customs criteria for an investment company set out in Section 1159 of the Corporation Tax Act 2010.

c) Deferred taxation

A deferred tax asset of £11,509,000 (2017: £10,887,000), in respect of excess expenses of £67,703,000 (2017: £64,042,000) available to be set off against future taxable profits has not been recognised as it is unlikely that there will be sufficient future profits to utilise these expenses.

8 Return per Ordinary Share

	year ended 31 August 2018			year ended 31 August 2017		
	revenue	capital	total	revenue	capital	total
Return per ordinary share – basic and diluted	5.70p	16.29p	21.99p	5.33p	35.80p	41.13p

The returns per ordinary share are based on, respectively; the net revenue return on ordinary activities after taxation for the year of £15,108,000 (2017: £14,093,000), the net capital return on ordinary activities after taxation for the year of £43,166,000 (2017: £94,746,000) and the net total return on ordinary activities after taxation for the year of £58,274,000 (2017: £108,839,000), and on 265,040,439 ordinary shares (2017: 264,637,494), being the weighted average number of ordinary shares held outside Treasury in issue during the year.

Notes to the Financial Statements continued

9 Dividends Paid to Shareholders

	year ended 31.08.18 £'000	year ended 31.08.17 £'000
Dividends paid		
Interim dividend of 1.85 pence per ordinary share paid for the year ended 31 August 2018	4,902	-
Final dividend of 2.80 pence per ordinary share paid for the year ended 31 August 2017	7,406	-
Interim dividend of 1.80 pence per ordinary share paid for the year ended 31 August 2017	-	4,761
Final dividend of 2.70 pence per ordinary share paid for the year ended 31 August 2016	-	7,143
	12,308	11,904
Dividends proposed		
Final dividend proposed of 3.15 pence per ordinary share for the year ended 31 August 2018	8,419	-
Final dividend of 2.80 pence per ordinary share paid for the year ended 31 August 2017	-	7,406
	8,419	7,406

The Directors have proposed the payment of a final dividend for the year ended 31 August 2018 of 3.15 pence per ordinary share which is subject to approval by Shareholders at the Annual General Meeting and has not been included as a liability in these financial statements. The dividend will be paid on 16 January 2019 to Shareholders on the register at the close of business on 7 December 2018 (ex-dividend date 6 December 2018).

Total share capital	270,644,480	13,532	270,644,480	13,532

* Ordinary Shares held in Treasury carry no rights to vote, to receive a dividend or to participate in a winding up of the Company.

During the year 2,050,000 ordinary shares (2017: nil) were issued out of Treasury. The proceeds from the issue of ordinary shares of £5,458,000 (2017: nil) was credited to the capital reserve. The total premium received in the year on the issue of ordinary shares of £44,000 (2017: nil) was credited to the share premium account. No ordinary shares were repurchased into Treasury during the year (2017: 850,000 shares repurchased at a cost of £1,724,000).

15 Reserves

The share premium account represents the amount by which the proceeds from the issue of ordinary shares has exceeded the cost of those ordinary shares. It is not distributable by way of dividend. It cannot be used to fund share repurchases.

The capital redemption reserve maintains the equity share capital of the Company and represents the nominal value of shares repurchased and cancelled. It is not distributable by way of dividend. It cannot be used to fund share repurchases.

The other non-distributable reserve represents an amount transferred in prior years from the warrant reserve. It is not distributable by way of dividend. It cannot be used to fund share repurchases.

The capital reserve represents realised gains or losses on investments and derivatives sold, unrealised increases and decreases in the fair value of investments and derivatives held and other income and costs recognised in the capital column of the Income Statement. It can be used to fund share repurchases and it is distributable by way of dividend. The Board have stated that it has no current intention to pay dividends out of capital.

The revenue reserve represents retained revenue surpluses recognised through the revenue column of the Income Statement. It is distributable by way of dividend.

16 Net Asset Value per Ordinary Share

The net asset value per ordinary share is based on net assets of £724,970,000 (2017: £673,502,000) and on 266,549,480 (2017: 264,499,480) ordinary shares, being the number of ordinary shares of 5 pence each held outside Treasury in issue at the year end. It is the Company's policy that shares held in Treasury will only be reissued at a premium to net asset value per share and, therefore, shares held in Treasury have no dilutive effect.

Notes to the Financial Statements continued

17 Financial Instruments and Risk Management

Management of risk

The Company's investing activities in pursuit of its investment objective involve certain inherent risks. The Board confirms that there is an ongoing process for identifying, evaluating and managing the risks faced by the Company. The Board with the assistance of the Manager, has developed a risk matrix which, as part of the internal control process, identifies the risks that the Company faces. Principal risks identified are market, share price, discount control, regulatory, cybercrime and investment management risks. Other risks identified are operational risks, including those relating to third party service providers covering investment management, marketing and business development, company secretarial, fund administration and operations and support functions. Risks are identified and graded in this process, together with steps taken in mitigation, and are updated and reviewed on an ongoing basis. These risks and how they are identified, evaluated and managed are shown in the Strategic Report on pages 11 and 12.

This note refers to the identification, measurement and management of risks potentially affecting the value of financial instruments. The Company's financial instruments may comprise:

- Equity shares and bonds held in accordance with the Company's investment objective and policies;
- Derivative instruments which comprise CFDs, options and futures on listed stocks and equity indices; and
- Cash, liquid resources and short term debtors and creditors that arise from its operations.

The risks identified arising from the Company's financial instruments are market price risk (which comprises interest rate risk, foreign currency risk and other price risk), liquidity risk, counterparty risk, credit risk and derivative instrument risk. The Board reviews and agrees policies for managing each of these risks, which are summarised below. These policies are consistent with those followed last year.

Market price risk

Interest rate risk

The Company finances its operations through its share capital and reserves. In addition, the Company has gearing through the use of derivative instruments. The Board imposes limits to ensure gearing levels are appropriate. The Company is exposed to a financial risk arising as a result of any increases in interest rates associated with the funding of the derivative instruments.

Interest rate risk exposure

The values of the Company's financial instruments that are exposed to movements in interest rates are shown below:

	2018 £'000	2017 £'000
Exposure to financial instruments that bear interest		
Long CFDs – exposure less fair value	125,733	90,699
Exposure to financial instruments that earn interest		
Short CFDs – exposure plus fair value	14,003	22,916
Amounts held at futures clearing houses and brokers	2,235	1,386
Fidelity Institutional Liquidity Fund	14,588	11,796
Cash at bank	2,303	1,969
	33,129	38,067
Net exposure to financial instruments that bear interest	92,604	52,632

17 Financial Instruments and Risk Management continued

Foreign currency risk

The Company does not carry out currency speculation. The Company's net return on ordinary activities after taxation for the year and its net assets can be affected by foreign exchange movements because the Company has income and assets which are denominated in currencies other than the Company's functional currency which is UK sterling. The Company can also be subject to short term exposure from exchange rate movements, for example, between the date when an investment is purchased or sold and the date when settlement of the transaction occurs.

Three principal areas have been identified where foreign currency risk could impact the Company:

- Movements in exchange rates affecting the value of investments and derivative instruments;
- Movements in exchange rates affecting short term timing differences; and
- Movements in exchange rates affecting income received.

Currency exposure of financial assets

The currency exposure profile of the Company's financial assets is shown below:

Currency	investments at fair value £'000	long exposure to derivative instruments ¹ £'000	debtors ² £'000	cash at bank £'000	2018
					total £'000

1 The exposure to the market of long CFDs and options after the netting of hedging exposures.

2 Debtors comprise debtors, amounts held at futures clearing houses and brokers and amounts invested in the Fidelity Institutional Liquidity Fund.

Notes to the Financial Statements continued

17 Financial Instruments and Risk Management continued

Currency exposure of financial liabilities

The Company finances its investment activities through its ordinary share capital and reserves. The Company's financial liabilities comprise short positions on derivative instruments and other creditors. The currency profile of these financial liabilities is shown below:

Currency	2018		total £'000
	short exposure to derivative instruments* £'000	other creditors £'000	
Euro	5,597	-	5,597
Other foreign currencies	-	-	-
UK sterling	8,468	2,764	11,232
	14,065	2,764	16,829

Currency	2017		total £'000
	short exposure to derivative instruments* £'000	other creditors £'000	
US dollar	3,227	44	3,271
Other foreign currencies	15,804	-	15,804
UK sterling	8,782	1,995	10,777
	27,813	2,039	29,852

* The exposure to the market of short CFDs.

Other price risk

Other price risk arises mainly from uncertainty about future prices of financial instruments used in the Company's business. It represents the potential loss the Company might suffer through holding market positions in the face of price movements. The Board meets quarterly to consider the asset allocation of the portfolio and the risk associated with particular industry sectors within the parameters of the investment objective. The Portfolio Manager is responsible for actively monitoring the existing portfolio selected in accordance with the overall asset allocation parameters described above and seeks to ensure that individual stocks also meet an acceptable risk/reward profile. Other price risks arising from derivative positions, mainly due to the underlying exposures, are estimated using Value at Risk and Stress Tests as set out in the Company's internal Derivative Risk Measurement and Management Document.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations associated with financial liabilities. The Company's assets mainly comprise readily realisable securities and derivative instruments which can be sold easily to meet funding commitments if necessary. Short term flexibility is achieved by the use of a bank overdraft, if required.

Liquidity risk exposure

The remaining undiscounted gross cash outflows of the financial liabilities were all repayable within one year and consisted of derivative instrument liabilities of £5,371,000 (2017: £9,003,000) and other creditors of £2,764,000 (2017: £2,039,000).

17 Financial Instruments and Risk Management continued

Counterparty risk

Certain derivative instruments in which the Company may invest are not traded on an exchange but instead will be traded between counterparties based on contractual relationships, under the terms outlined in the International Swaps and Derivatives Association's ("ISDA") market standard derivative legal documentation. As a result the Company is subject to the risk that a counterparty may not perform its obligations under the related contract. In accordance with the risk management process which the Manager employs, the Manager will seek to minimise such risk by only entering into transactions with counterparties which are believed to have an adequate credit rating at the time the transaction is entered into, by ensuring that formal legal agreements covering the terms of the contract are entered into in advance, and through adopting a counterparty risk framework which measures, monitors and manages counterparty risk by the use of internal and external credit agency ratings and by evaluating derivative instrument credit risk exposure.

For Over the Counter ("OTC") derivative transactions, collateral is used to reduce the risk of both parties to the contract. Collateral is managed on a daily basis for all relevant transactions. At 31 August 2018 £8,451,000 (2017: £5,417,000) was held by the brokers in cash in a segregated collateral account on behalf of the Company, to reduce the credit risk exposure of the Company. This collateral comprised of: Deutsche Bank AG £1,270,000 (2017: nil) held in cash denominated in Euros, HSBC Bank Plc £185,000 (2017: nil) held in cash denominated in UK sterling, and UBS AG £6,996,000 (2017: £5,417,000) held in cash denominated in US dollars. £2,235,000 (2017: £1,386,000), shown as amounts held at futures clearing houses and brokers on the Balance Sheet was held by the Company, in a segregated collateral account, on behalf of the brokers, to reduce the credit risk exposure of the brokers. This collateral comprised of: Goldman Sachs International Ltd £1,600,000 in cash and UBS AG £635,000 in cash (2017: £1,386,000 held at JPMorgan Chase Bank).

Credit risk

Financial instruments may be adversely affected if any of the institutions with which money is deposited suffer insolvency or other financial difficulties. All transactions are carried out with brokers that have been approved by the Manager and are settled on a delivery versus payment basis. Limits are set on the amount that may be due from any one broker and are kept under review by the Manager. Exposure to credit risk arises on unsettled security transactions and derivative instrument contracts and cash at bank.

Derivative instruments risk

The risks and risk management processes which result from the use of derivative instruments are set out in a documented Derivative Risk Measurement and Management Document. Derivative instruments are used by the Manager for the following purposes:

- To gain unfunded long exposure to equity markets, sectors or single stocks. Unfunded exposure is exposure gained without an initial flow of capital;
- To hedge equity market risk using derivatives with the intention of at least partially mitigating losses in the exposures of the Company's portfolio as a result of falls in the equity market;
- To position short exposures in the Company's portfolio. These uncovered exposures benefit from falls in the prices of shares which the Portfolio Manager believes to be over valued. These positions, therefore, distinguish themselves from other short exposures held for hedging purposes since they are expected to add risk to the portfolio.

RISK SENSITIVITY ANALYSIS

Interest rate risk sensitivity analysis

Based on the financial instruments held and interest rates at 31 August 2018, an increase of 0.25% in interest rates throughout the year, with all other variables held constant, would have decreased the return on ordinary activities after taxation for the year and decreased the net assets of the Company by £232,000 (2017: £132,000). A decrease of 0.25% in interest rates throughout the year would have had an equal but opposite effect.

Foreign currency risk sensitivity analysis

Based on the financial instruments held and currency exchange rates at 31 August 2018, a 10% strengthening of the UK sterling exchange rate against foreign currencies, with all other variables held constant, would have decreased the Company's net return on ordinary activities after taxation for the year and decreased the Company's net assets by £20,516,000 (2017: £17,232,000). A 10% weakening of the UK sterling exchange rate against foreign currencies would have increased the Company's net return on ordinary activities after taxation for the year and increased the Company's net assets by £25,076,000 (2017: £21,062,000).

Other price risk – exposure to investments sensitivity analysis

Based on the investments held and share prices at 31 August 2018, an increase of 10% in share prices, with all other variables held constant, would have increased the Company's net return on ordinary activities after taxation for the year and increased the net assets of the Company by £70,500,000 (2017: £65,397,000). A decrease of 10% in share prices would have had an equal and opposite effect.

Notes to the Financial Statements continued

17 Financial Instruments and Risk Management continued

Other price risk – net exposure to derivative instruments sensitivity analysis

Based on the derivative instruments held and share prices at 31 August 2018, an increase of 10% in the share prices underlying the derivative instruments, with all other variables held constant, would have increased the Company's net return on ordinary activities after taxation for the year and increased the net assets of the Company by £6,737,000 (2017: £2,545,000). A decrease of 10% in share prices would have had an equal and opposite effect. Details of the Company's net exposure to derivative instruments are shown in Note 18 below.

Fair Value of Financial Assets and Liabilities

Financial assets and liabilities are stated in the Balance Sheet at values which are not materially different to their fair values. As explained in Note 2 (k) and (l) above, investments and derivative instruments are shown at fair value. In the case of cash at bank, book value approximates to fair value due to the short maturity of the instruments.

Fair Value Hierarchy

The Company is required to disclose the fair value hierarchy that classifies its financial instruments measured at fair value at one of three levels, according to the relative reliability of the inputs used to estimate the fair values.

Classification	Input
Level 1	Valued using quoted prices in active markets for identical assets
Level 2	Valued by reference to valuation techniques using observable inputs other than quoted prices included within level 1
Level 3	Valued by reference to valuation techniques using inputs that are not based on observable market data

Categorisation within the hierarchy has been determined on the basis of the lowest level input that is significant to the fair value measurement of the relevant asset. The valuation techniques used by the Company are explained in Note 2 (k) and (l). The table below sets out the Company's fair value hierarchy:

	level 1 £'000	level 2 £'000	level 3 £'000	2018 total £'000
Financial assets at fair value through profit or loss				
Investments	703,541	-	1,456	704,997
Derivative instrument assets	1,058	2,845	1,036	4,939
	704,599	2,845	2,492	709,936

Derivative instrument assets	259	10,419	-	10,678
	645,884	10,419	8,347	664,650
Financial liabilities at fair value through profit or loss				
Derivative instrument liabilities	-	(9,003)	-	(9,003)

17 Financial Instruments and Risk Management continued

The table below sets out the movements in level 3 financial instruments during the year:

	year ended 31.08.18 level 3 £'000	year ended 31.08.17 level 3 £'000
Beginning of the year	8,347	5,860
Purchases at cost	144	-
Sales - proceeds	(10,548)	-
Sales - gains	4,398	-
Investments written off	-	(6)
Transfers into level 3*	1,640	1,599
Movement in investment holding (losses)/gains	(1,489)	894
End of the year	2,492	8,347

* Financial instruments are transferred into level 3 on the date they are suspended or when they have not traded for thirty days.

GVC Holdings option

The option was issued to Ladbrokes shareholders following the acquisition of Ladbrokes by GVC Holdings in March 2018. The value of this derivative asset is linked to the outcome of the UK Government review of fixed-odd betting terminals. The valuation at 31st August 2018 is based on the last trade price. At 31st August 2018 its fair value was £1,036,000.

Marwyn Value Investors

Marwyn Value Investors is a closed-ended fund incorporated in the United Kingdom. The fund is highly illiquid and the valuation at 31st August 2018 is based on the indicative bid price in the absence of a last trade price. As at 31st August 2018 its fair value was £1,172,000.

TVC Holdings

TVC Holdings is an unlisted investment holding company incorporated in Ireland. The valuation at 31st August 2018 is based on the last trade price. As at 31st August 2018 its fair value was £284,000.

18 Capital Resources and Gearing

The Company does not have any externally imposed capital requirements. The financial resources of the Company comprise its share capital and reserves, as disclosed in the Balance Sheet on page 46, and any gearing, which is managed by the use of derivative instruments. Financial resources are managed in accordance with the Company's investment policy and in pursuit of its investment objective, both of which are detailed in the Strategic Report on page 9. The principal risks and their management are disclosed in the Strategic Report on pages 11 and 12 and in Note 17 above.

19 Transactions with the Manager and Related Parties

FIL Investment Services (UK) Limited is the Company's Alternative Investment Fund Manager and has delegated portfolio management and the role of company secretary to FIL Investments International ("FIL"). Both companies are Fidelity group companies. Details of the fee arrangements are given in the Directors' Report on page 27 and in Note 4 above. During the year fees for portfolio management services of £6,107,000 (2017: £5,476,000) and fees for non-portfolio management services of £600,000 (2017: £600,000) were payable to FIL. Non-portfolio management fees include company secretarial, fund accounting, taxation, promotional and corporate advisory services. At the Balance Sheet date, fees for portfolio management services of £1,083,000 (2017: £967,000) and fees for non-portfolio management services of £100,000 (2017: £100,000) were accrued and included in other creditors. FIL also provides the Company with marketing services. The total amount payable for these services during the year was £139,000 (2017: £128,000). At the Balance Sheet date £7,000 (2017: £25,000) for marketing services was accrued and included in other creditors.

Disclosures of the Directors' interests in the ordinary shares of the Company and Directors' fees and taxable benefits relating to reasonable travel expenses paid to the Directors are given in the Directors' Remuneration Report on pages 35 and 36. In addition to the fees and taxable benefits disclosed in the Directors' Remuneration Report on page 35, £15,000 (2017: £14,000) of Employers' National Insurance Contributions was also paid by the Company.

20 Alternative Performance Measures

Total return is considered to be an alternative performance measure (as defined in the Glossary of Terms on page 75). NAV total return includes reinvestment of the dividend in the NAV of the Company on the ex-dividend dates. Share price total return includes the reinvestment of the net dividends in the months that the share price goes ex-dividend.

The tables below provide information relating to the NAVs and share prices of the Company, the impact of dividend reinvestments and the total returns for the years ended 31 August 2018 and 31 August 2017.

2018	Net asset value	Share price
NAV at 31 August 2017	254.63p	246.50p
NAV at 31 August 2018	271.98p	276.00p
Change in the year	+6.8%	+12.0%
Impact of dividend reinvestments	+1.9%	+2.0%
Total return for the year	+8.7%	+14.0%

2017	Net asset value	Share price
NAV at 31 August 2016	217.94p	196.25p
NAV at 31 August 2017	254.63p	246.50p
Change in the year	+16.8%	+25.6%
Impact of dividend reinvestments	+2.3%	+2.5%
Total return for the year	19.1%	28.1%

Financial Calendar

The key dates in the Company's calendar are:

31 August 2018 – Financial Year End

31 October 2018 – Announcement of the annual results for the year ended 31 August 2018

6 December 2018 – Ex-dividend Date

7 December 2018 – Dividend Record Date

12 December 2018 – Annual General Meeting

16 January 2019 – Payment of Final Dividend

28 February 2019 – Half-Year End

April 2019 – Announcement of the Half-Yearly Results for the six months to 28 February 2019

May 2019 – Ex-Dividend and Dividend Record Date

June 2019 – Payment of Interim Dividend

Notice of Meeting

Notice is hereby given that the Annual General Meeting of Fidelity Special Values PLC will be held at **25 Cannon Street, London EC4M 5TA** on 12 December 2018 at 11.30 am for the following purposes:

1. To receive and adopt the Annual Report and Financial Statements for the year ended 31 August 2018.
2. To declare that a final dividend for the year ended 31 August 2018 of 3.15 pence per ordinary share be paid to Shareholders on the register as at close of business on 7 December 2018.
3. To re-elect Mr Andy Irvine as a Director.
4. To re-elect Mrs Sharon Brown as a Director.
5. To re-elect Mr Dean Buckley as a Director.
6. To re-elect Mr Nigel Foster as a Director.
7. To re-elect Ms Nicky McCabe as a Director.
8. To approve the Directors' Remuneration Report (excluding the section headed The Remuneration Policy set out on page 34) for the year ended 31 August 2018.
9. To reappoint Ernst & Young LLP as Auditor of the Company to hold office until the conclusion of the next general meeting at which financial statements are laid before the Company.
10. To authorise the Directors to determine the Auditor's remuneration.

To consider and, if thought fit, pass the following special business resolutions of which Resolution 11 will be proposed as an ordinary resolution and Resolutions 12 and 13 as special resolutions.

Authority to allot shares and disapply of pre-emption rights

Resolutions 11 and 12 will, if approved, authorise the Directors to allot a limited number of new ordinary shares (or to sell any ordinary shares which the Company elects to hold in Treasury) for cash without first offering such shares to existing ordinary Shareholders pro rata to their existing holdings. The limit set by the Board is 10% of the number of ordinary shares of the Company (including Treasury shares) in issue on 31 October 2018. The Directors will only issue new ordinary shares, or dispose of ordinary shares held in Treasury, under this authority in order to take advantage of opportunities in the market as they arise and only if they believe it is advantageous to the Company's Shareholders to do so. Any ordinary shares held in Treasury would be re-issued at no less than net asset value ("NAV") per share or at a premium to NAV per share. This would ensure that the net effect of repurchasing and then re-issuing the ordinary shares would enhance NAV per share.

11. THAT the Directors be and they are hereby generally and unconditionally authorised in accordance with Section 551 of the Companies Act 2006 (the "Act") to exercise all the powers of the Company to allot shares in the Company or

to grant rights to subscribe for or to convert any security into shares in the Company ("relevant securities") up to an aggregate nominal amount of £1,353,222 (approximately 10% of the aggregate nominal amount of the issued share capital of the Company (including Treasury shares) as at 31 October 2018) and so that the Directors may impose any limits or restrictions and make any arrangements which they consider necessary or appropriate to deal with Treasury shares, fractional entitlements, record dates, legal, regulatory or practical problems in, or under the laws of, any territory or any other matter, such authority to expire at the conclusion of the next Annual General Meeting ("AGM") of the Company or the date 15 months after the passing of this resolution, whichever is the earlier, but so that this authority shall allow the Company to make offers or agreements before the expiry of this authority which would or might require relevant securities to be allotted after such expiry as if the authority conferred by this resolution had not expired. All previous unexpired authorities are revoked, but without prejudice to any allotment of shares or grant of rights already made, offered or agreed to be made pursuant to such authorities.

12. THAT, subject to the passing of Resolution 11, set out above, the Directors be and they are hereby authorised, pursuant to Sections 570-573 of the Act to allot equity securities (as defined in Section 560 of the Act) for cash pursuant to the authority given by the said Resolution 12 and/or to sell ordinary shares held by the Company as Treasury shares for cash, as if Section 561 of the Act did not apply to any such allotment or sale, provided that this power shall be limited:
 - a) to the allotment of equity securities or sale of Treasury shares up to an aggregate nominal amount of £1,353,222 (approximately 10% of the aggregate nominal amount of the issued share capital of the Company (including Treasury shares) as at 31 October 2018); and
 - b) by the condition that allotments of equity securities or sales of Treasury shares may only be made pursuant to this authority at a price of not less than the NAV per share,

and this power shall expire at the conclusion of the next AGM of the Company or the date 15 months after the passing of this resolution, whichever is the earlier, save that this authority shall allow the Company to make offers or agreements before the expiry of this authority, and the Directors may allot equity securities in relation to such an offer or agreement as if the authority conferred by this resolution had not expired.

Authority to repurchase shares

Resolution 13 is a special resolution which, if approved, will renew the Company's authority to purchase up to 14.99% of the number of ordinary shares in issue (excluding Treasury shares) on 31 October 2018 either for immediate cancellation or for retention as Treasury shares, at the determination of the Board. Once shares are held In Treasury, the Directors may only dispose of them in accordance with the relevant legislation by subsequently selling the shares for cash or cancelling the shares.

Notice of Meeting continued

Purchases of ordinary shares will be at the discretion of the Board and within guidelines set from time to time by the Board in the light of prevailing market conditions. Purchases will only be made in the market at prices below the prevailing NAV per share, thereby resulting in an increased NAV per share.

13. THAT the Company be and is hereby generally and unconditionally authorised in accordance with Section 701 of the Companies Act 2006 (the "Act") to make market purchases (within the meaning of Section 693 of the Act) of ordinary shares of 5 pence each ("the shares") in the capital of the Company provided that:

- a) the maximum number of shares hereby authorised to be purchased shall be 40,064,444;
- b) the minimum price which may be paid for a share is 5 pence;
- c) the maximum price which may be paid for each share is the higher of:
 - i) an amount equal to 105% of the average of the middle market quotations for a share taken from the London Stock Exchange Official List for the five business days immediately preceding the day on which the share is purchased; and
 - ii) the amount stipulated by Regulatory Technical Standards adopted by the European Commission pursuant to Article 5(6) of the Market Abuse Regulation (EU) No. 596/2014;
- d) the authority hereby conferred shall expire at the conclusion of the next AGM of the Company unless such authority is renewed prior to such time; and
- e) the Company may make a contract to purchase shares under the authority hereby conferred prior to the expiry of such authority which will or may be executed wholly or partly after the expiration of such authority and may make a purchase of shares pursuant to any such contract.

By Order of the Board

FIL Investments International

Secretary

31 October 2018

Notes:

1. Members are entitled to appoint a proxy to exercise all or any of their rights to attend and to speak and vote on their behalf at the meeting. A Shareholder may appoint more than one proxy in relation to the AGM provided that each proxy is appointed to exercise the rights attached to a different share or shares held by that Shareholder. A proxy need not be a Shareholder of the Company, but must attend the AGM to represent you. To appoint a proxy go to www.signalshares.com. If you need help with appointing a proxy online or require a paper proxy form, please contact our Registrar, Link Asset Services, on +44 (0) 371 664 0300, calls are charged at the standard geographic rate and will vary by provider. Calls from outside the United Kingdom will be charged at the applicable international rate. Lines are open between 09:00 – 17:30, Monday to Friday excluding public holidays in England and Wales.
2. To appoint a proxy via the share portal at www.signalshares.com, you will need to log in to your share portal account or register if you have not previously done so. To register you will need your Investor Code which can be found on your share certificate or dividend confirmation or by contacting our Registrar, Link Asset Services (details above). In the case of CREST members, you can vote by utilising the CREST electronic proxy appointment service in accordance with the procedures set out in note 5 below.
3. To be valid, an online proxy appointment or other instrument appointing a proxy must be received by our Registrar, Link Asset Services, no later than 11:30 on Monday 10 December 2018 or no later than 48 hours before any adjourned meeting, excluding non-business days. The appointment of a proxy will not prevent a Shareholder attending the General Meeting and voting in person if he/she wishes to do so.
4. In the case of joint holders, the vote of the senior who tenders the vote shall be accepted to the exclusion of the votes of the other joint holders and for this purpose, seniority shall be determined by the order in which the names stand in the Register of Members.
5. To appoint a proxy or to give or amend an instruction to a previously appointed proxy via the CREST system, the CREST message must be received by the issuer's agent RA10 by 11:30 on 10 December 2018. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the issuer's agent is able to retrieve the message. After this time any change of instructions to a proxy appointed through CREST should be communicated to the proxy by other means. CREST Personal Members or other CREST sponsored members and those CREST Members who have appointed voting service provider(s) should contact their CREST sponsor or voting service provider(s) for assistance with appointing proxies via CREST. For further information on CREST procedures, limitations and systems timings please refer to the CREST Manual. We may treat as invalid a proxy appointment sent

by CREST in the circumstances set out in Regulation 35(5) (a) of the Uncertificated Securities Regulations 2001. In any case your proxy form must be received by the Company's Registrar no later than 11:30 on 10 December 2018.

6. All members are entitled to attend and vote at the AGM and ask questions. The right to vote at the meeting will be determined by reference to the Register of Members as at close of business on 10 December 2018.
7. Any person to whom this notice is sent who is a person nominated under Section 146 of the Companies Act 2006 to enjoy information rights (a "Nominated Person") may, under an agreement between him and the member by whom he was nominated, have a right to be appointed (or to have someone else appointed) as a proxy for the meeting. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, he may, under any such agreement, have a right to give instructions to the member as to the exercise of voting rights. The statement of the rights of members in relation to the appointment of proxies in Note 1 above does not apply to Nominated Persons. The right described in that paragraph can only be exercised by members of the Company.
8. If the Chairman, as a result of any proxy appointments, is given discretion as to how the votes which are the subject of those proxies are cast and the voting rights in respect of those discretionary proxies, when added to the interests in the Company's securities already held by the Chairman, result in the Chairman holding such number of voting rights that he has a notifiable obligation under the Disclosure and Transparency Rules, the Chairman will make the necessary notifications to the Company and the Financial Conduct Authority. As a result, any member holding 3% or more of the voting rights in the Company who grants the Chairman a discretionary proxy in respect of some or all of those voting rights and so would otherwise have a notification obligation under the Disclosure and Transparency Rules, need not make separate notification to the Company and the Financial Conduct Authority.
9. Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, the Company has specified that to be entitled to attend and vote at the AGM (and for the purpose of determining the number of votes they may cast), members must be entered on the Register of Members by close of business on 10 December 2018. If the meeting is adjourned then, to be so entitled, members must be entered on the Register of Members by close of business on the day two days before the time fixed for the adjourned meeting, or, if the Company gives notice of the adjourned meeting, at any other time specified in that notice.
10. As at 31 October 2018 (the latest practicable date prior to the publication of this document) the Company's issued share capital consisted of 270,644,480 ordinary shares (including Treasury Shares). The number of Treasury shares held by the Company was 3,370,000. Therefore, the total number of shares with voting rights in the Company as at 31 October 2018 was 267,274,480.
11. Any corporation which is a member can appoint one or more corporate representatives who may exercise on its behalf all of its powers as a member provided that they do not do so in relation to the same shares.
12. Shareholders and any proxies or representatives they appoint understand that by attending the meeting they are expressly agreeing that they are willing to receive any communications, including communications relating to the Company's securities, made at the meeting.
13. It is possible that, pursuant to requests made by members of the Company under Section 527 of the Companies Act 2006, the Company may be required to publish on its website a statement setting out any matter relating to the audit of the Company's accounts (including the Auditor's report and the conduct of the audit) that is to be laid before the AGM or any circumstance connected with an Auditor of the Company ceasing to hold office since the previous meeting at which the Annual Report and Financial Statements were laid. The Company may not require the Shareholders requesting any such website publication to pay its expenses in complying with such requests. Where the Company is required to place a statement on a website under Section 527 of the Companies Act 2006, it must forward the statement to the Company's Auditor not later than the time when it makes the statement available on the website. The business which may be dealt with at the AGM includes any statement that the Company has been required under Section 527 of the Companies Act 2006 to publish on its website.
14. No Director has a service contract with the Company.
15. A copy of this notice and other information required by Section 311A of the Companies Act 2006 is published on the Company's website at www.fidelityinvestmenttrusts.com.

Registered office: Beech Gate, Millfield Lane, Lower Kingswood, Tadworth, Surrey KT20 6RP.

Shareholder Information

Investing in Fidelity Special Values PLC

Fidelity Special Values PLC is a company listed on the London Stock Exchange and you can buy its shares through a stockbroker, share shop or bank. Fidelity also offers a range of options, so that you can invest in the way that is best for you. Details of how to invest can be found on Fidelity's website at www.fidelityinvestmenttrusts.com

General Data Protection Regulation ("GDPR")

What personal data is collected and how it is used

The Company is an investment trust which is a public limited company and has certain regulatory obligations such as the requirement to send documents to its Shareholders, for example, the Annual Report, proxy forms and other documents that relate to meetings of the Company. The Company will therefore collect Shareholders' personal data such as names, addresses and identification numbers or investor codes and will use this personal data to fulfil its statutory obligations.

Any personal data collected will be kept securely on computer systems and in some circumstances on paper. Personal information is kept secure in line with Fidelity's Information Security policies and standards. If you are unhappy with how we have used your personal data, you can complain by contacting the UK Data Protection Officer at Fidelity International, Beech Gate, Millfield Lane, Surrey KT20 6RP.

Sharing personal data

In order to assist the Company in meeting its statutory requirements, the Company delegates certain duties around the processing of this data to its third party service providers, such as the Company's Registrar and Printers. The Company has appointed Fidelity to undertake marketing activities for the Company and their privacy statement can be found on the Company website at <https://investment-trusts.fidelity.co.uk/security-privacy/>

The Company's agreements with the third party service providers have been updated to be compliant with GDPR requirements. The Company confirms to its Shareholders that their data will not be shared with any third party for any other purpose, such as for marketing purposes. In some circumstances, it may be necessary to transfer Shareholders' personal data across national borders to Fidelity Group entities operating in the European Economic Area ("EEA"). Where this does occur, the European standard of protections will be applied to the personal data that is processed. Where personal data is transferred within the Fidelity group but outside of the EEA, that data will subsequently receive the same degree of protection as it would in the EEA.

How long will personal data be kept for?

We will keep the personal data for as long as is necessary for these purposes and no longer than we are legally permitted to do so.

Requesting access, making changes to your personal data and other important information

Shareholders can access the information that the Company holds about them or ask for it to be corrected or deleted by contacting Fidelity's UK Data Protection Officer, Fidelity International, Beech Gate, Millfield Lane, Surrey KT20 6RP.

Company Information

The Company was launched on 17 November 1994. The original subscription price was £1 for each ordinary share of 25 pence each. Following the sub-division of ordinary shares on a five for one basis on 29 June 2015, the Company's share capital now comprises ordinary shares of 5 pence each and the restated original subscription price is 20 pence for each ordinary share.

The Company is a member of The Association of Investment Companies ("AIC") from whom general information on investment trusts can be obtained by telephoning **020 7282 5555** (email: enquiries@theaic.co.uk).

Price Information

The mid-market price of the ordinary shares is published daily in The Financial Times under the heading "Investment Companies". The ordinary share price is also published in the Times, The Daily Telegraph and The Independent. You can also obtain current price information by telephoning Fidelity on **0800 41 41 10** (freephone) or FT Cityline on **0905 817 1690** (voice activated service) (calls charged at 60p per minute on a per second basis from a BT landline. Charges from other telephone networks may vary). The Reuters code for Fidelity Special Values PLC is FSV.L, the SEDOL is BWXC7Y9 and the ISIN is GB00BWXC7Y93.

Net Asset Value ("NAV") Information

The NAV of the Company is calculated and released to the London Stock Exchange on a daily basis.

UK Capital Gains Tax

All UK individuals under present legislation are permitted to have £11,700 of capital gains in the current tax year 2018/2019 (2017/2018: £11,300) before being liable for capital gains tax. Capital gains tax is charged at 10% and 20% dependent on the total amount of taxable income.

Alternative Investment Fund Manager's Disclosure

In compliance with the Alternative Investment Fund Managers Directive ("AIFMD"), the Board has appointed FIL Investment Services (UK) Limited ("FISL") (a Fidelity group company) as the Company's Alternative Investment Fund Manager ("AIFM"). FISL has delegated the portfolio management and company secretarial function to FIL Investments International (another Fidelity group company). Details of the Management Agreement can be found in the Directors' Report on page 27.

The table below discloses information required by the Alternative Investment Fund Managers Regulations 2013.

Function	AIFM Role and Responsibility	AIFMD Disclosure
Investment management	<p>The AIFM provides portfolio management of assets and investment advice in relation to the assets of the Company. It has delegated this function to FIL Investments International.</p> <p>The Board remains responsible for setting the investment strategy, investment policy and investment guidelines and the AIFM operates within these guidelines.</p>	<p>Details of the Company's investment objective, strategy and investment policy, including limits, are on pages 9 and 10.</p>
Risk management	<p>The AIFM has a responsibility for risk management for the Company which is in addition to the Board's corporate governance responsibility for risk management.</p> <p>The Company has a Risk Management Process Document which is agreed with the Board and demonstrates that risk management is separated functionally and hierarchically from operating units and demonstrates independence safeguards. The Manager maintains adequate risk management systems in order to identify, measure and monitor all risks at least annually under AIFMD. The Manager is responsible for the implementation of various risk activities such as risk systems, risk profile, risk limits and testing.</p> <p>The Board, as part of UK corporate governance, remains responsible for the identification of significant risks and for the ongoing review of the Company's risk management and internal control processes.</p>	<p>The AIFM has an ongoing process for identifying, evaluating and managing the principal risks faced by the Company and this is regularly reviewed by the Board. The Board remains responsible for the Company's system of internal control and for reviewing its effectiveness. Further details can be found in the Strategic Report on page 11 and in Note 17 to the Financial Statements on pages 58 to 63.</p>
Valuation of illiquid assets	<p>The Directive requires the disclosure of the percentage of the Alternative Investment Fund's assets which are subject to special arrangements arising from their illiquid nature and any new arrangements for managing the liquidity of the Company.</p>	<p>Not Applicable.</p>

Alternative Investment Fund Manager's Disclosure

continued

Function	AIFM Role and Responsibility	AIFMD Disclosure
Leverage	<p>The Company uses leverage to increase its exposure primarily to UK-listed companies and currently holds derivative instruments. The AIFM has set maximum levels of leverage that are reasonable. It has implemented systems to calculate and monitor compliance against these limits and has ensured that the limits have been complied with at all times.</p> <p>There are two methods of calculating leverage – the Gross Method which does not reduce exposure for hedging; and the Commitment Method which does reduce exposure for hedging.</p>	<p>The maximum leverage limits are 1.80 for the Gross Method of calculating leverage and 1.50 for the Commitment Method.</p> <p>At 31 August 2018, actual leverage was 1.24 for the Gross Method and 1.18 for the Commitment Method.</p>
Liquidity management	<p>The AIFM, in consultation with the Board, maintains a liquidity management policy which is considered at least annually.</p>	<p>No new arrangements for managing the liquidity of the Company have been made. Further details can be found in Note 17 on page 60.</p>
Remuneration of the AIFM	<p>The AIFM operates under the terms of Fidelity International's Global Remuneration Policy. This ensures that the AIFM complies with the requirements of the FCA's Remuneration Code (SYSC19A); the AIFM Remuneration Code (SYSC19B) and the BIPRU Remuneration Code (SYSC19C).</p>	<p>Details of Fidelity International's Global Remuneration Policy can be found at www.fidelityinternational.com/global/remuneration/default.page</p>

EU Securities Financing Transactions Regulations ("SFTR")

The following disclosures relate to contracts for difference ("CFDs") held by the Company which may be considered Total Return Swaps under the SFTR, which came into force on 12 January 2016.

As at 31 August 2018 all CFDs were contracted bilaterally with open maturities:

Broker	Fair Value £'000	Percentage of Net Assets	Collateral Granted £'000	Collateral Received £'000
Deutsche Bank AG (UK)	710	0.10%	1,270	-
Goldman Sachs International (UK)	(2,052)	(0.28%)	-	1,600
HSBC Bank plc (UK)	64	0.01%	185	-
UBS AG	(1,249)	(0.17%)	6,996	635

Collateral granted was denominated in Euros, UK sterling and US Dollars and held in a segregated account on behalf of the Company with a maturity of one day. The total return for the year ended 31 August 2018 from CFDs was a gain of £884,000.

Glossary of Terms

AIF

Alternative Investment Fund (“AIF”). The Company is an AIF.

AIFM

Alternative Investment Fund Manager (“AIFM”). The Board has appointed FIL Investment Services (UK) Limited to act as the Company’s AIFM/the Manager.

AIFMD

The Alternative Investment Fund Managers Directive (“AIFMD”) is a European Union Directive implemented on 22 July 2014.

Alternative Performance Measures

The Company uses the following Alternative Performance Measures which are all defined in this Glossary of Terms:

- Discount/Premium;
- Net Asset Value (NAV) per Share;
- Ongoing Charges;
- Return (Revenue, Capital and Total Returns); and
- Total Return Performance.

Benchmark Index

FTSE All-Share Index against which the performance of the Company is measured.

Capital Gains Tax (CGT)

The tax which you may have to pay if you sell your shares at a profit.

Collateral

Asset provided as security for the unrealised gain or loss under a contract for difference.

Contract for Difference (CFD)

A contract for difference is a derivative. It is a contract between the Company and an investment house at the end of which the parties exchange the difference between the opening price and the closing price of the underlying asset of the specified financial instrument. It does not involve the Company buying or selling the underlying asset, only agreeing to receive or pay the movement in its share price. A contract for difference allows the Company to gain access to the movement in the share price by depositing a small amount of cash known as margin. The Company may reason that the asset price will rise, by buying (“long” position) or fall, by selling (“short” position). If the Company trades long, dividends are received and interest is paid. If the Company trades short, dividends are paid and interest is received.

Corporation Tax

The tax the Company may have to pay on its profits for a year. Investment trust companies are exempt from corporation tax on their capital gains and do not pay tax on any UK dividends. As they can offset expenses against any taxable income, most investment trusts do not pay corporation tax and are therefore tax efficient for the Company.

Derivatives

Financial instruments (such as futures, options and contracts for difference) whose value is derived from the value of an underlying asset.

Discount

If the share price of the Company is lower than the net asset value per share, the Company is said to be trading at a discount. The discount is shown as a percentage of the net asset value. The opposite of a discount is a premium.

Fair Value

The fair value is the best estimate of the value of the investments, including derivatives, at a point in time and this is measured as:

- **Listed and AIM quoted investments** – valued at bid prices or last market prices where available, otherwise at published price quotations;
- **Unlisted investments** – valued using an appropriate valuation technique in the absence of an active market;
- **Futures and options** – valued at the quoted trade price for the contract; and
- **Contracts for difference** – valued as the difference between the settlement price and the value of the underlying shares in the contract (unrealised gains or losses).

Futures

An agreement to buy or sell a fixed amount of an asset at a fixed future date and a fixed price.

Gearing

Gearing describes the level of the Company’s exposure and is expressed as a percentage of Shareholders’ funds. It reflects the amount of exposure the Company uses to invest in the market. It can be obtained through the use of bank loans, bank overdrafts and derivatives, in order to increase the Company’s exposure to market price movements. The Company uses two key measures of gearing:

- **Gross gearing** is the total of all long exposures, plus short exposures and less exposures hedging the portfolio, expressed as a percentage of Shareholders’ funds.
- **Net gearing** is the total of all long exposures, less short exposures and less exposures hedging the portfolio, expressed as a percentage of Shareholders’ funds.

Gross Asset Exposure

Gross Asset Exposure measures the exposure to market price movements as a result of owning shares, derivatives and fixed-interest securities.

Hedging

A strategy aimed at minimising or eliminating the risk or loss through adverse movements, normally involving taking a position in a derivative such as a future or an option.

Glossary of Terms continued

Net Asset Value (NAV)

Net asset value is sometimes also described as “Shareholders’ funds”, and represents the total value of the Company’s assets less the total value of its liabilities. For valuation purposes it is common to express the **net asset value** on a per share basis.

Ongoing Charges

Total operating expenses (excluding finance costs and taxation) incurred by the Company as a percentage of the average daily **net asset values** for the reporting year.

Options

An **option** is a contract which gives the right but not the obligation to buy or sell an underlying asset at an agreed price on or before an agreed date. **Options** may be calls (buy) or puts (sell) and are used to gain or reduce exposure to the underlying asset on a conditional basis, for example, the purchase of a call **option** provides exposure to the upside potential of an underlying stock, with the downside risk being limited to the premium paid.

Pre-Emption Rights

Section 561 of the Companies Act 2006 provides that a company offering a new issue of shares must first make an offer of these shares, on the same or more favourable terms, in proportion to the nominal value held by existing Shareholders. At each annual general meeting, the Board seeks Shareholder approval to disapply **pre-emption right** provisions, up to 10% of the issued share capital.

Premium

If the share price of the Company is higher than the **net asset value** per share, the Company is said to be trading at a **premium**. The **premium** is shown as a percentage of the **net asset value**. The opposite of a **premium** is a **discount**.

Return

The **return** generated in a given period from the investments:

- **Revenue Return** reflects the dividends and interest from investments and other income net of expenses, finance costs and taxation;
- **Capital Return** reflects the return on capital, excluding any revenue return; and
- **Total Return** reflects the aggregate of revenue and capital return.

Shareholders’ Funds

Shareholders’ funds are also described as “**net asset value**” and represent the total value of the Company’s assets less the total value of its liabilities.

Total Return Performance

The return on the share price or **net asset value** per share taking into account the rise and fall of share prices and the dividends paid to Shareholders. Any dividends received by the Shareholder are assumed to have been reinvested for additional shares (for share price total return) or in the Company’s assets (for **net asset value** total return).

Treasury Shares

Ordinary shares of the Company that have been repurchased by the Company and not cancelled but held in Treasury. These shares do not pay dividends, have no voting rights and are excluded from the **net asset value** per share calculation.
